

# Little Medical School STEM

## NEW Classes Coming to Cobb Schools!

LMS offers STEM activity-based classes where we strive to inspire the next generation of Healthcare Heroes!  
We are offering four 12-week classes beginning in January 2024.

### Little Doctor School

Through role-play and activities, students will learn the key responsibilities of a doctor and explore the heart, lungs, and digestion. Students will use real medical instruments (stethoscope, reflex hammer, and blood pressure cuff) and practice scrubbing, suturing, and tying knots like a real surgeon.

### Little Vet Dog School

After "adopting" their very own plush puppy, students will role-play the key responsibilities of a veterinarian, including how to properly perform a nose-to-tail exam. These future veterinarians will learn how to sew stitches, remove ticks, make healthy treats, and vaccinate their dog.

### Little Vet Cat School

Students will role-play the key responsibilities of a veterinarian and perform a whiskers-to-tail exam on their newly "adopted" plush cat. These future veterinarians will learn about animal body language, maintaining a healthy environment such as proper litterbox placement, create a cat toy, and design a vet clinic.

### Equine Medicine School

Students will adopt and name their plush horse and learn the anatomy and maintenance of a horse. They will also learn basic horse nutrition, riding styles, gaits and role-play and basic key responsibilities of an equine veterinarian.
