

1. Click “Send Forms” from the navigation bar in the provider’s encounter.
2. Select the patient’s cell phone number from this drop down. The patient will receive a link on this number.
3. Select a form from the available forms section. The PHQ will be auto-selected if the patient is due for a depression screen.
4. Click “Send Forms to Patient” when completed.

Please use the verbiage at the top of the template to explain this process to the patient.

Patient Education

Clinica Forms

Do you have a cell phone with you and can I confirm that number? You will receive a text with some forms that are important to your care. Please fill them out on your phone while you wait and if you have trouble accessing them through the link you are texted, let me know and I can provide you with a paper form. We prefer that you fill them out electronically as it helps your care team access them more efficiently. The link will expire in 30 minutes.
