

## Beyond Oil Announces Closing of First Tranche of Non-Brokered Private Placement

*Company has raised C\$619,141.50 at C\$0.75 per Unit*

VANCOUVER, B.C. and KIBBUTZ YIFAT, ISRAEL / ACCESSWIRE / October 23, 2023 – Beyond Oil Ltd. (CSE: BOIL) (OTCQB: BEOLF) (“Beyond Oil” or the “Company”), a food-tech innovation company extending the life of frying oil, reducing costs, waste and health risks, is pleased to announce the closing of the first tranche totalling C\$619,141.50 (the “First Tranche”) of a non-brokered private placement (the “Offering”) of up to US\$2.0 million, that was previously announced in a [news release](#) dated October 6, 2023.

The units (each, a “Unit”) issued pursuant to the Offering have a purchase price of C\$0.75 per Unit, which are comprised of one common share of the Company and one half of one share purchase warrant (each whole warrant, a “Warrant”). Each Warrant will be exercisable for one Share (a “Warrant Share”) at a price of C\$1.25 per Warrant Share for a period of one year after the closing date. The net proceeds raised from the Offering will to be used for general corporate purposes. A total of 825,522 Units have been issued in the First Tranche.

All securities issued pursuant to the Offering will be subject to a hold period of four months and one day from the date of issuance. The Company will promptly advise the market as additional tranches of the Offering close.

### Product Highlights

**Frying Oils Recovery:** Extensive testing indicates that the Beyond Oil Product extends the usable life of frying oil, improves product quality, and reduces frying oil costs. As a preferential adsorbent, the product reduces and prevents the formation of harmful components such as Free Fatty Acids (“FFA”), Total Polar materials (“TPM”), acrylamide, polycyclic aromatic hydrocarbons (“PAHs”), trans fats, and other impurities, ensuring frying oil stays fresh and fried food tastes fantastic.

**Patent Protected:** The Company also has a portfolio of registered and patent-pending solutions that extend the shelf-life of produced and used vegetable oils.

**Potential Cost-Savings:** One of Beyond Oil's unique value propositions is that it can dramatically lower costs for quick-service restaurants by significantly extending the useful life of the oil while meeting food quality and safety requirements. For more information on how the Beyond Oil Product extends the life of frying oil, see the Company's [news release](#) dated December 12, 2022.

**Distribution Ready:** The Company received a non-objection letter from the US Food & Drug Administration (“FDA”) in March 2022, on the basis that all the Beyond Oil Product ingredients meet food-grade specifications of the FDA. In May 2022, Beyond Oil received a non-objection letter from Health Canada and a National Sanitation Foundation certification. Beyond Oil is legally permitted to sell its product into the Israeli market according to the processing-aid and filtering-aid regulations.

### How the Beyond Oil Product Works

The Beyond Oil Product integrates into the existing filtration systems of both commercial and industrial fryers. The combination of active filtration by the powder and passive filtration by the filter and filtration machine ensures the best results by removing other degradation particles. The powder remains on the filter and creates an additional layer which provides the microfiltration benefit.

### **About Beyond Oil Ltd.**

Beyond Oil is an innovative food-tech company dedicated to transforming the way we consume and produce food. We provide sustainable solutions for the food industry, prioritizing environmental protection and the well-being of its workers and customers. Our innovative solutions help reduce costs for our partners and clients while ensuring responsible and eco-friendly practices. We are committed to environmental responsibility, minimizing the carbon footprint of the food industry on our planet. By implementing cutting-edge techniques, we deliver a healthier final product by reducing the formation of carcinogenic substances in fried food. Our vision is to create a more sustainable future where food safety, cost efficiency, and environmental consciousness come together seamlessly.
