

LIVING OUR MISSION

A's main goal for the last couple of years has been to begin his **basketball career** with his sights set on the **Special Olympics**. A's support team focussed on other options while waiting for his turn to be part of this amazing event.

Recently, A successfully secured an **Assistant Coach** position with the Guelph Gryphons Men's basketball team. In addition to being in charge of water and running the scoreboard, A keeps the team motivated with his positive attitude and helps to make everyone feel included. A continues to make sure the team knows how awesome they all are which helps with the overall team morale.

Recently, A received the news he had been waiting for - that he was accepted on to the **Special Olympics Basketball team**. In addition to his other roles, A now holds two more socially values roles:

Assistant Basketball Coach and basketball player!

These opportunities, made possible by A's amazing staff, have helped him grow his life skills such as conversation skills, work responsibility, and time management. A continues to fulfill his goals this year and is thriving in every aspect.
