

# LIVING OUR MISSION

K is a young man who has a passion for thrills along with movies. Recently, he had the opportunity to go to Niagara Falls to enjoy a FUN-FILLED day which included the sky wheel, Movie Wax museum, Zombie 3D rollercoaster, and a simulated skydiving event- The top 2 for the day were the Movie wax museum and skydiving. K has a profound memory surrounding movies and is very interested in all the Marvel shows, as well as movies that came out in the year 2000. As you can see from the photos, he enjoyed every moment the paparazzi were able to capture a photo in front of his favourite statues.

Then it was on to the Niagara freefall facility to experience a simulated skydiving experience. In the simulator the winds created were up to 160km per hour to provide K with approximately 8 minutes in total of a skydiving experience. He thoroughly enjoyed his time doing this....next on his bucket list is the CN tower Edge walk.

This was an amazing day for K who, like many of us, struggled during Covid with limited opportunities to have amazing days like this one in Niagara Falls.
