

MAKING MEDICAL DEVICE TESTING ACCESSIBLE

Accessible and Affordable Medical Hardware Device Testing

Canada's first hardware and silicon-focused accelerator [ventureLAB](#) is now providing a fully-functioning MedTech Lab environment, offering an accessible and affordable solution for startups seeking to refine and test their groundbreaking medical-related hardware devices.

Designed for healthcare startups that develop microelectronic hardware devices for medical, biological, and chemical applications, ventureLAB MedTech Lab is perfectly suited to cater to your company's specific needs. You will have the opportunity to test and prototype your microelectronic hardware devices, ensuring that they meet the highest standards of quality and functionality.

Co-located in the office of [Sterling Industries](#), a highly experienced global MedTech contract manufacturer in Vaughan, ON, the MedTech Lab will give you unparalleled advantages by providing direct access to invaluable resources and an environment that will help you overcome the challenges of commercialization.

295 Connie Crescent, Concord, ON L4K 5R2

HOW IT WORKS

The operation of our MedTech Lab is simple - you conduct the testing of your medical-related hardware devices.

Utilizing our lab space makes the rapid prototyping application testing process affordable and scalable. Our lab is equipped with a variety of current lab testing equipment, which is capable and regularly calibrated to ensure accurate results.

NOTABLE EQUIPMENT

Discover ECHO Revolve 4

A two in one microscope: upright and inverted with capability of fluorescence

Labconco Purifier® Logic®+ Class II A2 Biosafety Cabinets

Providing personnel, product and environmental protection and is suitable for work in biosafety levels 1, 2 and 3.

Heidolph Autoclave

Autoclave for sterilization of plastics, liquids, tools, clothes and glass

Eppendorf 5702 Cell culture package

Cell culture device for separating solid particles dispersed in liquid medium

Sterling+

Sterling Industries is a vertically integrated, leading contract manufacturer that specializes in production of innovative medical devices. With almost 40 years of experience, Sterling has a reputation for delivering high quality, end-to-end turnkey solutions to clients.

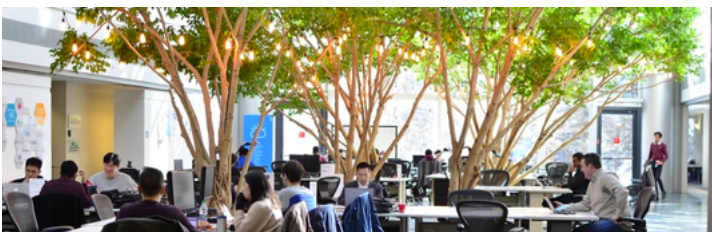

Establishing a thriving MedTech sector requires investing in technology, top engineering talent, and a commitment to providing resources and mentorship to emerging companies looking to scale. We immediately recognized the value in ventureLAB's new MedTech program because it ticks all of those boxes.

David Van Slingerland, CEO, Sterling Industries
