Okay, our 1st, speaker shareholder is prediction be.

310 "Pratik Shetty" (548842752)

00:31:59.939 --> 00:32:02.939

Mr. you want to speak now? How am I audible.

311 "Aarya Patankar LinkIntime" (87938048)

00:32:02.939 --> 00:32:06.059

Yes, okay.

312 "Pratik Shetty" (548842752)

00:32:06.059 --> 00:32:17.039

Uh, thanks for giving me this opportunity. So I have a set of questions. I'll quickly go through them and, uh, the management can kind of answer later. So, the 1st question is based on the raw material cost. So, from.

313 "Pratik Shetty" (548842752)

00:32:17.039 --> 00:32:29.574

The previous, uh, result, and even 1 key result, it's clear that we were not able to pass on the increase in cost. So, uh, can the management give a broad color of the current, uh, trend in cost?

314 "Pratik Shetty" (548842752)

00:32:29.574 --> 00:32:40.374

And what also, what is the, so, is it gumpta printing that we import natively or do we have other raw materials as well and, uh, uh, trend of, uh, the camphor prices as well?

315 "Pratik Shetty" (548842752)

00:32:41.184 --> 00:32:53.304

Uh, 2nd question is, uh, around the expansion. So I have this MTC consult letter with me of November, 2020, with the, the production that, uh, kind of allowed. So I just wanted management confirmation.

316 "Pratik Shetty" (548842752)

00:32:53.304 --> 00:33:06.234

If, uh, this is the current production capacity that we have cam for production as per, the letter is 1 to 50 or metric tons per month or as in chemistry 1000 metric tons and drop in derivative is 1500 metric tons per month.

317 "Pratik Shetty" (548842752)

00:33:06.234 --> 00:33:08.844

thousand five hundred metric tons per month

318 "Pratik Shetty" (548842752)

00:33:09.149 --> 00:33:14.039

So, I just wanted a confirmation on whether this is our current production capacity.

319 "Pratik Shetty" (548842752)

00:33:14.664 --> 00:33:29.184

Thirdly, in the annual report, you have mentioned about, uh, being the next growth area and also, I think there are some customers and final phases of approval. So, can you give a broad color on what is the current currently?

320 "Pratik Shetty" (548842752)

00:33:29.184 --> 00:33:41.664

What stage is the approval and also when can we expect like a decent production of or any type in derivative for that matter or like 1 or 2 medium term? Um.

321 "Pratik Shetty" (548842752)

00:33:41.939 --> 00:33:45.959

Guidance on top in the derivative productions.

322 "Pratik Shetty" (548842752)

00:33:45.959 --> 00:33:49.079

And.

323 "Pratik Shetty" (548842752)

00:33:49.079 --> 00:33:56.339

Last sorry, lastly, on some color on the retail business as well, is the retail business currently margin decorative.

324 "Aarya Patankar LinkIntime" (87938048)

00:34:04.949 --> 00:34:11.039

Thank you. Mr. um, our next speaker shareholder is.

325 "Keshav garg" (5036288)
00:34:13.344 --> 00:34:27.084
Okay, sure you may speak now so thank you very much for providing this opportunity. So I have already sent you a detailed list of questions. So if you have the same in front of you, then I won't repeat the same to avoid time.

326 "Shachi Sanghavi" (1963608064)
00:34:27.449 --> 00:34:30.779
Yes, we do have your questions. Mr.

327 "Keshav garg" (5036288)
00:34:30.779 --> 00:34:42.264
Uh, so, so I won't repeat them, sir, just 1 thing on behalf of the shareholders who are basically ignorant of, uh, the technicalities in the business of chemicals sir uh,

328 "Keshav garg" (5036288)
00:34:42.534 --> 00:34:56.454
what kind of operating margins or layman should expect, who doesn't understand much about the business. So, can we acquire 21 margin? Should we take a standard last year's margin or the 1st quarter?

329 "Keshav garg" (5036288)
00:34:56.454 --> 00:35:00.594
So I'm sure that 1st, quarter margin are a 1 off. So. so

330 "Keshav garg" (5036288)
00:35:00.779 --> 00:35:05.339
If you can shed light on that, so that will be great. And so, secondly.

331 "Keshav garg" (5036288)
00:35:05.339 --> 00:35:19.949
So, what, after our recent capex, so, how much revenue can we generate if we operate it? Peak capacity at current realization so thank you very much and rest of the questions you already have. So thank you very much and best of luck.

332 "Aarya Patankar LinkIntime" (87938048)
00:35:21.959 --> 00:35:31.349
