

a2 Collective Data and Resource Sharing Plan Agreement

1. The Applicant, _____, has read and understood the a2 Collective Data and Resource Sharing Plan.

☐ Yes ☐ No

2. The Applicant agrees to adhere to the principles of the a2 Collective Data and Resource Sharing Plan, as outlined in the Introduction of the a2 Collective Data and Resource Sharing Plan.

☐ Yes ☐ No

3. Please list what data will be generated in this pilot project, including data type (e.g., labs, demographics, images, wearable waveform data, EKG, EEG):

4. What data representation standards, if any, will be used for each data type?

5. Please list any resources that will be generated in this pilot project:

6. Please indicate if any of these materials will be proprietary and explain the reasoning. The a2 Collective expects that raw data collected using commercially available devices will rarely be proprietary; rather, the inferences made from those data through AI or machine learning are likely to be proprietary. Please keep in mind embargos can be negotiated with the AITC.

7. Please indicate if the Applicant is willing to participate in the a2 Collective Data Enclave for pre-competitive data, hosted by the JH AITC Data Integration and Quality Core. Participation will allow applicants access to resources provided by the Core and the data enclave. If the Applicant will not participate in the a2 Collective Data Enclave, please list any plans for data and resource sharing.

☐ Yes ☐ No

8. One goal of the a2 Collective Data and Resource Sharing Plan is eventual archival of data in the National Archive of Computerized Data on Aging (NACDA). Please indicate if the Applicant will archive data in NACDA, and if not, why.

☐ Yes ☐ No
