## Work Experience

### UX Designer II, Honeywell

Atlanta | June 2023 - Nov 2023

- Led the end-to-end product design for Trust Center, a website showcasing Honeywell Forge's commitment to data privacy, security and compliance for its enterprise-level SaaS products, elevating sales enablement for European and Asian customers
- Initiated user surveys, focus groups, design critique sessions with internal subject matter experts, and Q&A sessions with the dev team to ensure the seamless execution of design intent
- Collaborated closely with a cross-functional team including product, legal and marketing, based in Atlanta and Bangalore

### UX Design Intern, Honeywell

Atlanta | May 2022 - August 2022

- Pioneered the Forge UI mobile design system used by nearly 100 Honeywell mobile apps
- Spearheaded the definition and development of design foundations and a versatile component library, implemented across both iOS and Android systems

### Software Engineer Intern, PwC Acceleration Center

Shanghai | Oct 2020 - June 2021

- Delivered Figma prototypes and implemented the front-end interface with NodeJS for a cloud-based DevOps platform
- Built a machine learning-based data analysis tool as a full-stack developer, enhancing the informed decision-making processes in corporate mergers and acquisitions

### Project Manager Intern, The Design Lab

San Diego | June 2019 - Sept 2019

- Co-founded D4SD, a non-profit civic innovation competition in San Diego, solving city problems through design thinking
- Launched the D4SD online platform, coordinating a team of engineers, marketers, designers and community partners
