

Which book is right for me?

We've made the cliffnotes version for you

There is an enormous amount of data contained in these annual publications and, with two to choose from, there is a book for everyone. The Handbook deals with projects of a more complex nature covering values over and above \$1.5 million. If your project is of a more domestic nature with a smaller project value that is below \$1.5 million, the Cost Guide is more appropriate, also including a renovation section.

ESTIMATING - BUILDING COSTS PER SQM Buildings up to \$1,500,000 Buildings over \$1,500,000	29 Pages Yes	12 Pages No
ESTIMATING - ELEMENTAL COSTS OF BUILDING Buildings up to \$1,500,000 Buildings over \$1,500,000	57 Pages Yes	18 Pages No
ESTIMATING - COMPARATIVE COSTS Buildings up to \$1,500,000 Buildings over \$1,500,000	No 63 Pages	24 Pages No
