

Aero “HX “Instrument Tables

Stainless Steel Portable Tables are used in hospitals, surgical facilities and healthcare offices to store and transport delicate instruments. Fully welded 18-gauge series 300 stainless steel tabletop and 1.25" O.D. tubular stainless-steel legs are designed to safely handle 300 lbs. of medical equipment. Medical cart rolls smoothly with 3" rubber swivel casters. Ships fully assembled.

Harrison Series Table features a sturdy H-Brace open frame design which allows unobstructed access to the tabletop from the sides.
