M3-MINI User Manual

1. Screw the cartridge onto the battery.
   To avoid residue buildup, remove the cartridge if not in use.

2. Press the button 5 times quickly to power on or off.
   When the device powers off, the LED blinks for 2 seconds and then fades out.

3. When the device is on, hold the button to start heating up the battery.
   LED indicator will light up meaning the device is ready for use.
   When not holding the button, the device will stop heating and the LED will fade out.

4. In standby mode, press the button 3 times quickly to adjust the temperature settings
   and the corresponding color LED will flash 3 times.

5. With 10 second inhalation protection,
   the battery will automatically cut out and stop working if inhale is over 10 seconds.
