Flex Pro

Unlock Unlimited Possibilities

CALYX

Fully FLEXible for HTE's

Flex Pro was created specifically for high terpene extracts! Built with CCELL EVO, our all-new heating technology, Flex Pro is capable of bringing out the distinctive aromas and rich flavor profiles of high terpene extracts, allowing for a memorable, true-to-plant experience with every inhale.

CALYX

Creativity Without Boundaries

If you want your brand to stand out from the crowd, look no further than Flex Pro. Flex Pro provides unlimited customization so your products can easily get the notice they deserve—Wrap your brand's artwork around the oil window to give it a distinct personality, or give its surface a unique finish for enhanced aesthetics, tactility, and more.

CALYX

Clog-Free, Worry-Free

Flex Pro is the ideal disposable for anyone looking for a dependable and hassle-free vaping experience. Built with CCELL's cutting-edge dual air vent design, Flex Pro ensures effortless, smooth draws with consistent vapor delivery and no clogs every time.

CALYX

One Size, Two Volumes*

Flex Pro was designed with the *flexibility* to house 0.5ml or 1ml of oil without altering the size or shape of the external hardware. This allows oil brands to expand their product range in a flash and utilize the same packaging for both available sizes.

*The mouthpiece internal structure of both sizes is different; tank volume must be defined during order placement.

CALYX

Specs

- **Tank Volume:** 0.5ml/1ml
- **Battery capacity:** 280mAh
- **Dimensions:** 108.9H x 23W x 11.3D (mm)
