INTRODUCTION TO WOLVERINU

Launched on October 19th, 2021, Wolverinu emerged as a beacon of innovation in the crypto world. With a visionary team that left conventional jobs behind, Wolverinu swiftly garnered attention, transcending the label of "just another meme coin." Its journey to the stars began with a dedicated community and an active development team, fostering partnerships and making news within the crypto space. Now, with the infusion of the Play 2 Earn game Metabrawl Inuverse, Wolverinu is poised for unprecedented growth and exploration.

VISION

Wolverinu envisions a dynamic presence within the Ethereum blockchain, uniting a powerful community and all memecoins to redefine possibilities. Wolverinu will pioneer the creation of NFTs that transcend mere digital assets, serving as playable characters and in-game assets in the Metabrawl Inuverse game. The upcoming launch of the Play-to-Earn (P2E) NFT game marks a pivotal moment, inviting players to engage in battles and tournaments and earn \$WOLVERINU tokens.

VALUES

TRUST, TRANSPARENCY, HONESTY

At the heart of Wolverinu lies a commitment to trust, transparency, and honesty. Upholding the highest standards of token security and investor confidence, Wolverinu ensures transparency by renouncing the contract address and maintaining locked liquidity. With a completed audit by the renowned CertiK Blockchain Security Team, Wolverinu stands as a beacon of trust in an ever-evolving crypto landscape. An open dialogue and AMA's enable transparency, reinforcing Wolverinu's dedication to community engagement.

NFTS

Early adopters of Wolverinu have been rewarded with exclusive NFT giveaways, setting the stage for future collaborations with acclaimed artists. As Wolverinu ventures into the Metabrawl Inuverse game, anticipation builds for the release of NFTs that will redefine the gaming experience.

METABRAWL INUVERSE

NFT CONCEPT

At the heart of Metabrawl Inuverse lies the revolutionary concept of Non-Fungible Tokens (NFTs). These NFTs represent rare and collectible in-game assets such as characters, weapons, and items, secured on the Ethereum blockchain for true ownership and authenticity. To play the game with your chosen character, you must first purchase their corresponding NFT. As the game progresses, more NFTs will be added to the roster, offering players a wider selection of characters to choose from.

GAMEPLAY OVERVIEW

Metabrawl Inuverse is a blockchain-based game where players acquire NFTs from various meme coin communities, then pit them against each other in battles. Players can earn \$WOLVERINU tokens during gameplay and exchange them for money on a trading platform. Each character in Metabrawl Inuverse is uniquely crafted with their own strengths, speed, and health levels. These attributes play a crucial role in determining the outcome of battles, requiring players to strategize and adapt their tactics based on the strengths and weaknesses of their chosen character.

FREQUENTLY ASKED QUESTIONS

Can I play Metabrawl Inuverse for free?

- Metabrawl Inuverse offers both free-to-play and paid modes, catering to a diverse range of players. While the free mode allows access to basic gameplay features, the paid mode offers additional opportunities for engagement and reward. In the paid mode, players have the option to participate in betting scenarios where tokens can be earned upon successful outcomes. It's important to note that access to characters and items may require the expenditure of tokens, ensuring a balanced and dynamic gaming experience.

How do I create an account and start playing?

- To create an account and start playing Metabrawl, you will have to visit the official website. Follow the registration process and set up your account. Once registered, you can connect your wallet and begin exploring the game and its various features.

What is a Metabrawl NFT?

- Metabrawl NFTs are non-fungible tokens that represent unique in-game assets such as characters, weapons, or items within the Metabrawl Inuverse ecosystem. These NFTs are secured on the blockchain, ensuring ownership and authenticity.

Is there any utility or benefits associated with owning Metabrawl NFTs?

- Yes, owning Metabrawl NFTs provides various benefits including access to playing with the characters, earning rewards, participating in tournaments, and potentially generating income through gameplay, trading, or reselling the NFT on the marketplace.

Are there any special abilities or attributes associated with Metabrawl NFTs?

- Each Metabrawl character possesses unique attributes, abilities, and characteristics that can impact gameplay. These attributes may include strength, speed, special powers, or rarity, which can influence your strategy and performance in the game.

How does owning Metabrawl NFTs contribute to the overall gaming community or ecosystem?

- Owning Metabrawl NFTs contributes to the growth and sustainability of the gaming community by fostering a vibrant marketplace where players can buy, sell, and trade assets. Additionally, it enhances the overall gaming experience by introducing scarcity, collectibility, and value to Metabrawl characters and items, thereby creating a dynamic and engaging ecosystem for players to participate in.

Is a Crypto Wallet required to play the game?

- Yes, a Crypto Wallet is required to play Metabrawl Inuverse. To fully participate in the game's features and transactions involving cryptocurrencies, you'll need a compatible wallet. Popular options include MetaMask, Trust Wallet, and various others that support Ethereum-based assets. These wallets not only enable secure storage of your digital assets but also facilitate seamless interaction with the game's economy. Although there is a free-mode, you will need to connect a wallet to play.

Is Metabrawl supported on mobile devices?

- As the progress of the game advances, Metabrawl Inuverse will become available on mobile devices. However, at this stage of development, it is exclusively accessible on desktop platforms. Stay tuned for updates as we work to bring the exciting world of Metabrawl Inuverse game to your mobile devices in the future.

Can we chat with opponents and team members in-game?

- Yes, in Metabrawl you can chat with both your opponents and team members during gameplay. This feature enhances the social aspect of the game, allowing you to strategize with your team, coordinate attacks, and engage in friendly banter with your opponents. Effective communication can often be the key to success, so make sure to take advantage of this feature to maximize your gaming experience.

Can we track player stats?

- Yes, in Metabrawl Inuverse you can track player stats. Keeping tabs on your performance and progress is essential for improving your skills and strategizing effectively. Whether it's monitoring your win-loss ratio or analyzing who holds the highest scores, the game provides comprehensive tools to help you assess your performance and identify areas for improvement. With detailed player stats available, you can measure your success and strive to become a top contender in the exciting world of Metabrawl Inuverse.

ROADMAP

PHASE 1

- Website Launch V1
- Launch whitepaper V1
- Billboard on Times Square
- Articles on Wolverinu
- Listing on CoinGecko
- Listing on CoinMarketCap
- Listing on Uniswap
- Listing on Shibaswap
- Listing on Sushiswap
- Listing on Fegex
- Contests & Giveaways
- Execute first marketing strategy
- Locking Liquidity
- Voting Listings
- 4000 Holders
- 2000 Telegram members
- Listing on Hotbit

PHASE 2

- Attend Dubai Crypto Expo
- CEX listings
- Listings on bigger exchanges (Huobi, Bittrex, Crypto.com, etc.)
- Sponsor various crypto events
- Launch of new merch line
- Launch Wolverinu Exchange
- P2E game partnerships
- Release second comic
- Weekly announcements and newsletter
- Release new and improved website
- More influencer collaborations
- Twitch and Esports marketing
- Daily paid promotional competitions
- Airdrop competition
- Second and Third Charity Vlog
- Play 2 Earn Game Trailer

PHASE 3

- Partnerships with other tokens
- Strategic Marketing
- AMA's with YouTubers
- AMA's with Twitter influencers
- Daily promotional contests
- First NFT airdrop for loyal members
- Charity and Donations
- Get trending on Dextools
- Trending on CoinMarketCap
- Trending on CoinGecko
- Banner ads on listing websites
- Release beta footage of P2E game
- Listing on LBank
- Listing on Bitmart
- Listing on Hotbit
- Staking V1
- Merch store
- Work with comic creators
- Release first comic
- Collab with top tier NFT artists
- Release Wolverinu EP

PHASE 4

- Rollout of Metabrawl Inuverse
- Additional CEX listings
- Continued marketing efforts
- Further partnerships and collaborations
- Enhancements based on user feedback
- Community engagement initiatives
- Updated website and new Whitepaper
- NFT's: Metabrawl character NFTs are completed and ready to be released
- In-game footage phase 2: Get a glimpse of the progress made in the second phase of in-game development through exclusive footage
- AMA's: Upcoming AMA's on X and Telegram
- Gaming Partnership: A significant partnership announcement for Metabrawl providing us with RWA technology, in-game skins and NFT's, and providing exposure to Metabrawl
- Ongoing trailer production: Gameplay footage ready for release
- Marketing: Numerous marketing efforts to broaden our audience

PHASE 5

- Expansion of Metabrawl Inuverse features
- Integration with other platforms and games
- Scaling up marketing campaigns
- Exploring additional revenue streams
- Continued community growth and support
- Continued updates and improvements to the website and whitepaper
- Further NFT releases, in game asset releases and collaborations
- Continued promotion of in-game footage and teasers
- AMA's with prominent figures in the crypto and gaming community
- Continued gaming partnerships to enhance the gaming experience and broaden exposure
- RWA partnership announcement and integration
- Finalization and release of Metabrawl Inuverse game
- Execution of marketing campaigns with influencers and partnered tokens to reach a wider audience
