Managers must now be ready to **embrace various degrees of combined onsite and remote collaboration**. Hybrid working offers huge potential advantages for both organizations and their employees, but also comes with some big challenges.

This course shows how to **optimize hybrid collaboration** for you and your team while resisting the "out of sight, out of mind" mentality. There are techniques for **building trust** and **human connections**, handling **conflict** and **stress**, running and contributing to effective **meetings, managing and motivating** colleagues, **recruiting** in this environment, and much more.
