*The first Swiss Program in the Field of Femtech*

Tech4Eva 2021 cohort start-ups raised CH67+ million CHF to date for women's healthcare.

# The FemTech Bridge to Asia, Europe, USA and UK

Tech4Eva is on a mission to create an innovation platform in Switzerland, where disruptive start-ups and projects in FemTech from around the globe develop innovative solutions for improving or advancing technologies relating to women's health and achieving respective growth.

## The Goal of this program ?

To create long-term impact for FemTech start-ups and create a global FemTech Community.

The global 9-month equity free start-up acceleration program will help selected start-ups companies to refine their business models and go-to-market process strategy, to meet investors and potential customers and connect them with leading FemTech hubs around the globe.

# Applications 2022

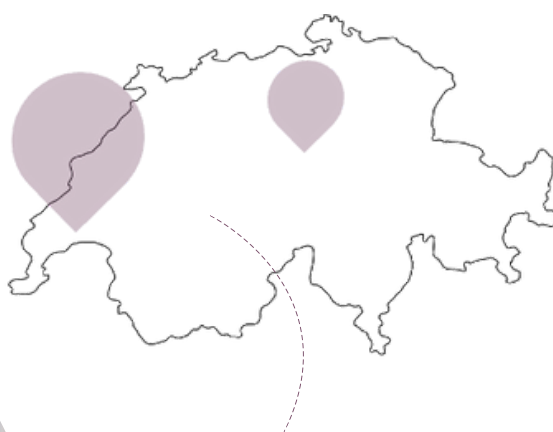

## A diverse community

**We encourage women to launch their ideas**

Only a small percentage of global start-ups are led by female founders. Our application process counts more than 80% of start-ups and early-stage projects founded or co-founded by women.

● Applications per country

# The 2022 start-up selection

From a total of 124 applications, 14 growth-stage start-ups and 14 early-stage start-ups and projects have been selected for the 2022 program. The international cohort is mainly represented by Swiss-based, USA-based and Israel-based entrepreneurs, the majority of which focuses their solutions in the areas of Fertility & Pregnancy and Women's Wellness and Medicine.

● Selected start-ups and projects by regions

● Selected start-ups and projects by domain

# Mentors Coaches 2022

A pool of experts in a joint and dedicated effort to help our participants achieve growth.

## Entrepreneurs

**Frederik Decouttere**

Chairman, Alitheia Genomics  
and AVP & SLIMS GM,  
Agilent

**Cédric Morel**

IoT expert

“I am excited to be a mentor at Tech4Eva in order to be able to share some of the hard learnings we experienced during the 20-year of growth at Sensile Technologies. If I can help anyone to avoid making the same mistake, we did, it will be worthwhile.

**Martin Velasco**

Founder, Chairman & CEO  
Anecova

“Tech4Eva is an outstanding initiative that will certainly contribute to the development of a vibrant community of talent in the area of Femtech and support the development of entrepreneurs and startups at the EPFL Innovation Park and beyond.

**Eric Dy**

Co-founder & CEO  
Bloomlife

**Jean De Wolff**

Chairman, Board Member, Lecturer and  
Business Coach, Raiffeisen  
Centre des Entrepreneurs

The world of male entrepreneurs has developed some great solutions in the past to improve our life, but it has overlooked the problems of just half of the population, namely the female population. I fully support Tech4Eva's vision of putting a special focus on women's needs to correct the past bias.

# From Corporates

**Jennifer Cubino**

COO, Customer Success  
& Data Sciences  
BC Platforms

I support Tech4Eva to help new companies launch in the market. For too long, we have focused innovation on only men and in supporting Tech4Eva, we can level the investments made for all.

**Hanne Langmoen**

Senior Business  
Director International  
Embecta

"Partnering with the best innovation park in Switzerland is a key success factor for us to attract and grow innovative solutions."

**Nicolas Loeillot**

Senior technology  
entrepreneur and investor  
CSS Insurance  
Innosuisse Expert

**Kai Thornagel**

Director  
Essity

**Samantha Paoletti**

Head of Research and  
Business Development  
CSEM

The participation to the Tech4Eva initiative allowed me to meet and support the FemTech community. It was amazing to meet men and women working together to remove gender inequality in healthcare. CSEM is committed to support companies and initiatives developing innovative solutions to close female health gap.

**Cindy Rodriguez**

Global Brand Director for  
Disruptive Innovation &  
Sustainability,  
Procter & Gamble, Oral Care  
Business Unit

"Mentoring start-ups is an exciting opportunity! Every time, I meet passionate founders with intriguing ideas, and we work together to turn them into viable business propositions. We tackle the hard questions, learn from each other's experience, and dream together of a better world! Every time, we leave the room (call) with actionable next steps, inspired, and with a refreshed perspective

**Raymon uit de Bulten**

Director Venture Leader  
Philips

"I am excited to be a part of Tech4Eva to support innovative start-ups which are disrupting healthcare by enabling women to have access to quality care, designed for their needs.

**Jeroen van den Oeren**

CFO  
Sunbioscience

# From Ecosystem

**Anna Butterworth**  
Founder & MD  
UltraViolet

**Caroline Coquerel  
Kokocinski**

Trainer & Start-up Coach,  
ideix

**Sharon Brunt**

Chief Brand Activist & Founder  
Be More Girl

Empowering women globally through better access to quality healthcare, is vital in achieving gender equality. Programs like Tech4Eva provide FemTech founders—from all walks of life—all-important access to expert mentorship, that might otherwise be out of reach. I've very much enjoyed being a part of it.

**Marta Gehring**

Business Development &  
Marketing Strategist,  
Swiss Biotech Association

Tech4Eva is helping to fill gaps in women's health and wellness, and the EPFL Innovation Park and its partners should be proud of what they have achieved.

**Nanci Govinder**

Start-up Board Member,  
Investor, Coach, Trainer  
and Juror

I am supporting FemTech because investing in women's health is an investment in development, hence an investment in the future of society.

**Susan Herbert**

Liefesciences Advisor

# From Ecosystem

**Douglas Haggstrom**

Experienced Digital & Strategy Professional, Innovation Office University of Basel

**Reto Hartmann**

Business Coach, EPFL Innovation Park

Tech4Eva brings together entrepreneurs from different backgrounds to tackle women's health issues.

Tech4Eva  
=  
Networked energy"

Female Health Technology remains largely unexplored and the market is heading for disruption.

**Kyriakos Kokkoris**

Mentor & Entrepreneur University of Lausanne

**Claude Joris**

Secretary General, BioAlps

**Mariam Megally**

Investor, Judge & Mentor, Trainer and Advisor to start-ups

**Jérôme Michaud**

Coach & Mentor

Femtech is an untapped industry with many opportunities and needs. There are not enough solutions to improve women's health and taboos still remain. That's the primary reason I am supporting this industry and Tech4Eva program, a first of its kind. I can't think of anything else to put my creative energy and passion for innovation, excellence.

# From Ecosystem

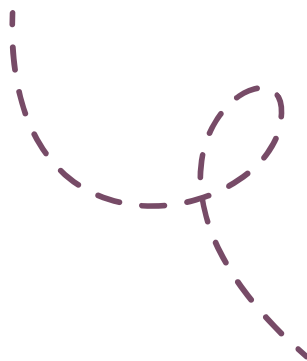

**Christopher Meyer**  
Independent Consultant

**Mariam Megally**  
Investor, Judge & Mentor,  
Trainer and Advisor to start-ups

It was an honor to participate in the selection process of this amazing number of start-ups applying to Tech4Eva from around the world. Let's imagine, let's network and let's drive for EVA!

**Lan Zuo Gillet**  
Deputy Managing Director

Spain

**Sector**    Pregnancy & post partum  
**Solution**    Medical devices

INNITIUS is a Spanish Startup focused on providing Actionable Diagnostics for Women's Health. The company develops medical devices (Hardware + Software) which combines a novel technology (Torsional Waves) with Artificial Intelligence for the diagnosis of pathologies with an associated change in a woman's cervical tissue consistency. The first product of the company -Fine Birth- is a diagnostic tool that accurately, cost effectively and in real-time differentiates between true and false threats of preterm labor at the point of care.

[www.innitius.com](http://www.innitius.com)

**Ruben Molina**  
CEO

I think there are two key benefits of a program likeTech4Eva that I would like to remark: (1) the extensive network they have, which has helped us to contact VCs, medical equipment manufacturers or technology research centers and that will surely help us now and in the future and (2) the visibility that the program gives our company within the Women's Health sector, which puts us on the radar of Corporates and VCs, clinicians and patients.

Switzerland

**Sector**    Prevention & Oncology  
**Solution**    AI services and data analysis

Allow breast units to use their full potential for earlier, better and quality-controlled diagnosis of breast cancer. The digital core of our solutions is a revolutionary AI technology. The b-box is a scalable plug-and-play solution supporting all tasks of professionals (doctors, technicians and clinical managers) in the breast unit. All diagnostic and administrative tasks in breast imaging are automated and controlled.

[www.b-rayz.ch](http://www.b-rayz.ch)

Tech4Eva is an amazing platform that allows to build strategic partnerships and to create a strong network with decision makers. The program has given us a huge visibility since the very early days.

**Cristina Rossi**  
CEO & Co-Founder

**Dr. Sabrina Badir**  
CEO & Co-Founder

**Dr. Francisco delgado**  
VP R&D & Co-Founder

**Sector** Pregnancy & post partum  
**Solution** Diagnostics & Medical devices

Pregnolia is an ETH Zurich spinoff developing a diagnostic device to evaluate the risk of preterm birth and improve detection rates from 40% to 80%. The Pregnolia System measures the stiffness of the cervical tissue of a pregnant woman and its changes during pregnancy. By detecting abnormal stiffness changes, it can diagnose cervical incompetence and the likelihood of preterm birth. It builds on the PhD of Sabrina Badir at ETH and the University Hospital of Zürich.

## United Kingdom

**Sector** PCOS Management  
**Solution** Monitoring Equipment

viO HealthTech's vision is to provide a targeted personalised approach to the major women's health issues of conception, Polycystic Ovarian Syndrome ("PCOS"), diminished ovarian reserve, miscarriage risk, pregnancy complications and menopause.

[www.viohealthtech.com](http://www.viohealthtech.com)

**Rob Milnes**  
CEO

“Tech4Eva is a game changing start-up program. As a relatively well-developed business in our growth phase, it still added considerable value to our strategic approach, and helped us progress with corporate partnerships. Sharing and discussing the growing pains of a business with peers – whatever their current state of development – is also an invaluable enriching and therapeutic experience!

Wild AI helps women train, fuel and recover in line with their physiology. Our product enables women to make better decisions for their health through providing training, nutrition and recovery recommendations based on individual user data.

A circular portrait of a woman with long blonde hair, wearing a white triathlon suit with black and pink accents. She is looking directly at the camera with a slight smile. The background is a bright, hazy outdoor setting.

Tech4Eva was a high-quality program to have access to for Wild.AI. There were valuable connections made across relevant fields and markets – with mentors who were extremely helpful in providing insights, ideas, and connections. The program also had high quality sessions on various topics which became valuable for our team discussions. Learning from industry level experts, as well as having access to R&D in the FemTech space allowed us to accelerate our ideation process and move faster. Thanks, Tech4Eva for a brilliant program!

Medical devices company that created a state-of-the-art technology for early cancer detection and treatment monitoring. Delee is a blood-based assay for the early detection of cancer and monitoring of the applied treatments' effectiveness.

“Tech4Eva is a community of innovators, changemakers and fearless entrepreneurs, that are passionate. We connected, cheered, and supported each other through the length of the program.”

**Liza Velarde**  
Founder

## United States of America

**Sector** Pregnancy & post partum  
**Solution** Monitoring Equipment

**Marc Finch**  
Co-Founder

**Roger Young**  
Co-Founder

Improve mother and baby outcomes through innovation in pregnancy monitoring. We identify EMG signal analytics to support the clinical decision making associate with the physiology of labor. We support bedside and home care. Juno's pregnancy monitors share a single ECG/EMG acquisition technique creating a platform of three discrete solutions of customized analytics: 1) fetal monitor; 2) diagnosing true preterm labor; 3) clinical guidance for dosing oxytocin.

## South Africa

**Anne Gabathuse**  
CEO & Founder

**Sector**    Pregnancy & post partum  
**Solution**    IoT / Wearables

At SeroMed Technologies, we truly understand the experience of being diagnosed with a deep vein thrombosis or pulmonary embolism on a personal level, and so we are developing an exciting product for those affected , to alleviate that stress and anxiety by empowering everyone to be in control of his/her health and not the other way around!

[seromedtech.com](http://seromedtech.com)

Being accepted into the Tech4Eva program was the best thing that I ever experienced after participating in a few accelerator programs. Tech4Eva understands the FemTech space, the problems we have as Founders are trying to solve, and the challenges startups may encounter on that journey to saving the world. Being in the program is like having a big sister who guides and advises you, which is important when one embarks on this journey. I also got to learn alot from fellow Founders and it was heartening to learn that the challenges we encounter are not just local but worldwide.

## South Korea

I N E R T I A

**Seungmin Lee**  
Co-Founder

### DELIVER HEALTH

**Sector** Pregnancy & post partum  
**Solution** Application and Healthcare Software

Our vision is to build a highly skilled midwifery workforce to save the lives of mothers and newborns. We will revolutionize midwifery education by building a knowledge platform, in line with international standards, combined with cutting-edge technology in higher didactics. If well trained, midwives have the potential to avert 80% of all maternal deaths. If we want to reach the Sustainable Development Goal 3 by 2030, and radically reduce maternal mortality, we need to invest into midwives of the future.

[deliverhealth.ch](https://deliverhealth.ch)

## A pole of innovation as Tech4Eva's birth house

The EPFL Innovation Park supports disruptive innovations and the transfer of technologies of the prestigious Ecole polytechnique fédérale de Lausanne (EPFL) and other regional academic partners, by providing flexible office space, training, acceleration and coaching services. Building a true sense of community, the Park is devoted to housing start-ups, SMEs, research teams and innovation cells from major companies that operate in fields as diverse as information technology, computing, health and nutrition, engineering, transport, telecommunications or materials.

A photograph of a modern, multi-story building with a white facade and large windows. The building is partially obscured by a large, dark purple circular graphic element. The sky is blue with white clouds. The foreground shows a green lawn and a paved area.

In constant evolution since it was founded in 1991, EPFL Innovation Park currently houses 14 buildings with access to various laboratories and cutting-edge research, hosting over 150 start-ups, 26 large companies and around 20 services providers. The vibrant campus provides a unique environment to a large network of dynamic entrepreneurs and established companies for exchanging ideas and knowledge.

# Founding Partners

Groupe Mutuel is Tech4Eva's main sponsor and is one of the leading personal and health insurance companies in Switzerland: more than 1.3 million private customers and close to 24'000 companies rely on the insurer every day.

In addition to compulsory health insurance (LAMal/KVG) and supplemental insurance (LCA/VVG), customers can choose from an extensive range of life insurance plans to cover risks and provide for their individual retirement benefits, as well as from a range of patrimony insurance solutions. Moreover, Groupe Mutuel insurers provide daily allowance insurance to companies, pursuant to LAMal/KVG and LCA/VVG, as well as compulsory accident insurance (LAA/UVG).

Groupe Mutuel also manages Groupe Mutuel Prévoyance-GMP pension fund.

# Technology Partner

CSEM is a Swiss private, non-profit, industrial research and development organization. They provide technological innovation solutions for many industries. Their mission is to develop and transfer world-class (micro) technologies to the industrial sector—Switzerland being their priority—in order to reinforce the sector's competitive advantage. They do this by making cooperation agreements with established companies and encouraging the creation of start-ups. Technology partners

# Roadshow Partners

DayOne has built a platform for collaborative innovation across disciplines and industries by accelerating startups, launching catalyst projects and hosting a community and events to bring healthcare innovation ventures forward. They are shaping the future of health by accelerating digital transformation in Europe's leading healthcare and life sciences hub.

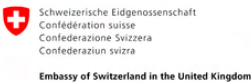

The INSEAD Healthcare Club brings together students who wish to pursue a career in the healthcare industry, those who are seeking to return to the healthcare industry, and students who simply want to learn more about this fast-growing sector.

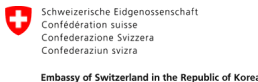

SICTIC is a non-profit organization and the largest Business Angel Network in Switzerland, connecting the most innovative Swiss seed and early-stage tech startups to smart money investors. SICTIC's mission is to shape the investor and startup ecosystem in Switzerland by growing the quantity and quality of Swiss early-stage startup investments. SICTIC is committed to helping Swiss tech startups succeed, creating new jobs, and contributing to Switzerland's economic development.

Swissnex is Switzerland's Science and Technology global network connecting Switzerland and the world in education, research and innovation. Swissnex's mission is to support the outreach and active engagement of our partners in the international exchange of knowledge, ideas and talent. Swissnex is the launchpad for Swiss startups going global.

The teams of the Swiss embassies in the Republic of Korea and in the United Kingdom are part of the Swiss global network connecting Switzerland and the world in education, research and innovation. They contribute to strengthen Switzerland's profile as a world-leading science and innovation hotspot.

# Network Partners
