

# Professional Scrum™ with Kanban

This advanced course for Scrum practitioners shows how to enrich Scrum with Kanban practices to manage the flow of value and build a more predictable process. Theory and simulation show the potential of Kanban, while hands-on exercises show how to get the best from both of the methods.

## Target audience

The course is particularly beneficial for:

- Scrum Masters who want to learn how flow, flow metrics and other Kanban practices can help them and their Scrum Teams improve how they work in Scrum
- Scrum practitioners with a desire to improve their current practices and who are interested in learning how Kanban practices can help them and their teams improve
- Professionals who have experience working with proficient Scrum Teams
- Agile Coaches willing to expand their toolkit

## Aims and Objectives

- ✓ Understand flow and Kanban practices from the perspective of the Scrum Team
- ✓ Explain how Kanban practices can be used to improve flow within a Sprint
- ✓ Increase transparency by helping the Scrum Team visualise their workflow
- ✓ Use data to create a Scrum Team's service level expectation (SLE) for use in improving delivery predictability
- ✓ Apply the concept of flow and Kanban practices during Scrum Events
- ✓ Assist the team in overcoming common flow challenges by actively managing work in progress (WIP)

## Benefits
