Applying Professional Scrum™

A course ideal for future Scrum Teams and Scrum members with no or little experience with Scrum. It teaches how to deliver quality products using the Scrum framework. Participants work in Scrum Teams over a series of Sprints. They learn Scrum and in parallel experience it facing challenges and complex problems.

Target audience

The Applying Professional Scrum™ is excellent training for organisations, teams, and individuals wanting to experience the benefits of Scrum, or for those interested in continuing their learning with more advanced training:

- Professionals who are part of a team that currently uses Scrum but desire a refresher so that they get the most out of their use of Scrum

- Professionals who are joining a team that currently uses Scrum

- Professionals who don't use Scrum directly but want to learn how to work with colleagues that use Scrum

- Professionals who want to investigate if Scrum makes sense for them and their colleagues

- Professionals who are part of an organisation that intends to use Scrum soon

- Teams who are learning to use Scrum together in their organisations

- Professionals wishing to continue their education with role-focused (Scrum Master, Product Owner, Developer, Leader) accountabilities in and outside Scrum

Aims and Objectives

- Learn about agility and how Scrum differs from traditional plan-driven work models

- Develop an Agile mindset by focusing on professionalism, experimentation, and outcomes

- Get to know the fundamentals of Scrum and how to apply them correctly

- Develop an understanding of what it is like to use Scrum and if it is suitable for your team

- Learn how to be a great Scrum Team member or how to support a great Scrum Team

✓ Leave the class with ways to identify common pitfalls and how to avoid them
