“GIBFIBRE's services are the best in Gibraltar. We have been with them for a number of years, and they have never let us down. We use them from everything from our TV connections for sporting events, our telephone lines and even our Wi-Fi enabled PDQ's for taking payments. Their service is second to none, always very helpful and responsive and always willing to help us out. For example, when we need some extra TV connections for the World Cup and the Euros, their team is always there to help us out to make sure we can provide a decent environment for our customers to enjoy.”
