CASE STUDY

Binky's Kitchen, tucked away in the heart of town, is a chocolatier specialising in all kinds of chocolatey goodness and Greek inspired bakery items. Everything is made from scratch using fresh ingredients, to provide the best quality products possible. Making customers happy and feeling like they are eating something special, yet affordable is a source of great pride.

“I had just opened my shop as the pandemic hit, and so had to begin to target a mostly online audience. It's been a difficult year as a small business, and so great service from GIBFIBRE has been paramount to my survival.

I use GIBFIBRE at home and have always found the service reliable and the agents super friendly. For my business I need to keep in constant contact with my customers and also run my takeaway food app smoothly. I have always found a very good and speedy response from GIBFIBRE staff when needed.”
