

# RRM™ Plug-n-Play

## Remote Respiratory Monitoring (RRM) Program for RPM Partners

### Fast track your path to revenue with a rapid go-to-market RRM solution.

The ZEPHYRx RRM solution easily plugs into your existing RPM platform enabling you to roll out an offering in as little as 2 weeks.

- Kick off that revenue stream now and avoid the cost, time and headache of:
  - ✗ building, testing, and meeting quality standards
  - ✗ maintaining the feature set with changes in standards and test type requirements
  - ✗ maintaining spirometer firmware/SDK updates

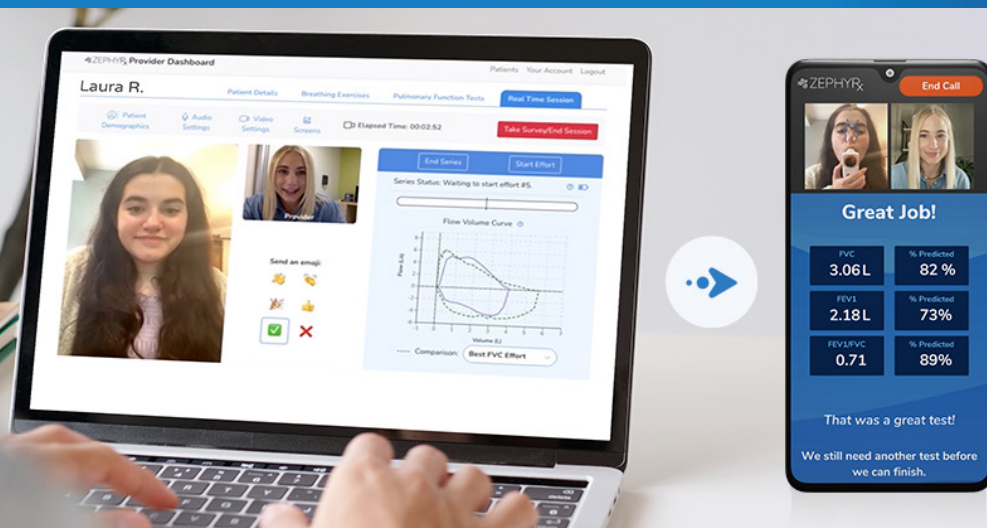

**Our solution is proven, secure, and trusted by thousands  
of providers and patients.**

MIR Spirobank FDA-Cleared  
Spirometer measures FVC,  
SVC, FEV1, FEV1/FVC, Peak  
Flow and more\*

Proven lab-equivalent  
results meeting ATS quality  
standards

HIPAA compliant patient  
app with GLI-2012  
predicted values and ATS  
standard calculations

\*Also measures FEF2575, FEV6, Evol, PEF Time, FEF75, FET, FEF25, FEF50, FIVC, FIV1, PIF, FEV3, FEV05, FEV075, FEV2.

## ZEPHYRx Provider Dashboard

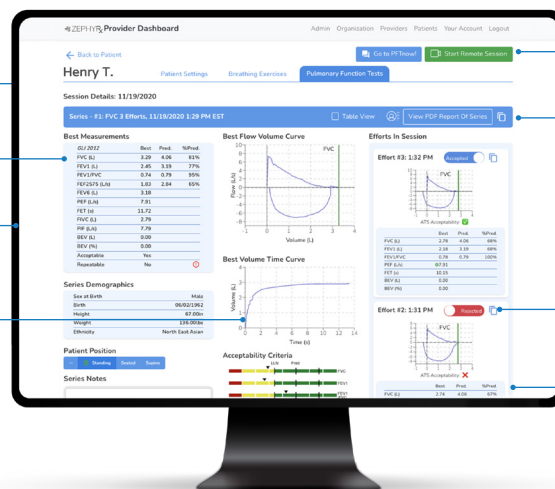

Cloud-based access to patient data with industry-leading features like **Real-Time Video Coaching**.

PFT data sent in real-time

20 measurements
