Boxes

- Model Living boxes follow an intelligent modular system with standardized base, wall and tall units for multi-functional designs
- All boxes consist of high-grade engineered wood that are precisely squared and assembled using robust screw fastening technology for a long-lasting rigid construction that is backed up by our limited life time warranty
- Faces are melamine direct coated, making them extremely durable and easy to clean
- Interior color comes in white as standard making for a bright, clean space

BOXES

Cabinet Construction

Model Living cabinetry is built in North America using premium-grade engineered wood panels that are squared during assembly for a more stable and precise end result. The Model Living box design leverages modern European frameless cabinetry principles.

BOXES

Hinges & Drawers

Award-winning, German-engineered BLUMOTION hinges and drawer slides come standard.

Blum CLIP Top Hinge

- Effective at delivering soft and effortless closing to cabinet doors of all sizes
- Designed to withstand 200,000 opening and closing cycles
- Easy side, height, and depth adjustments with a spiral screw

Blum Legrabox Drawer

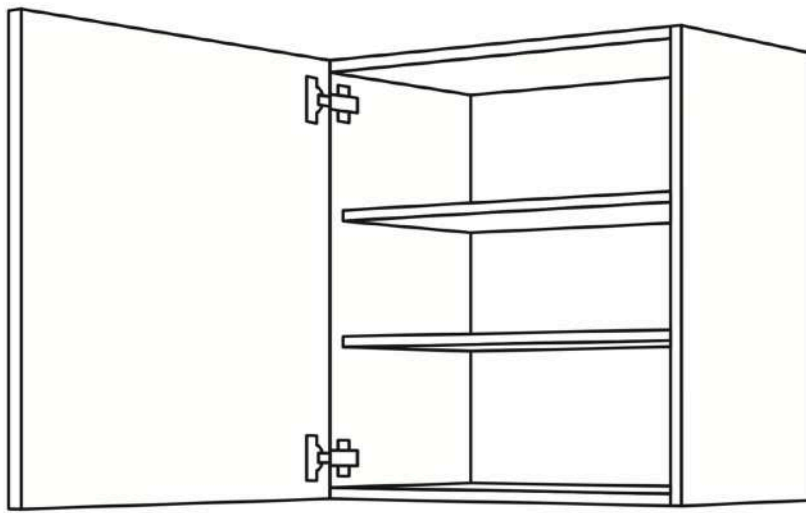

- Drawers close softly and effortlessly regardless of their weight
- Requires minimal opening forces from the moment you open the drawer
- Slim side panels and narrow installation width ensures optimal utilization of space
- Sturdy metal construction and high dynamic carrying capacities up to 100 lbs
- Full extension drawer system allows for ergonomic full access into drawers

BOXES

Interior Shelves

Wall cabinets, base cabinets, and tall cabinets come with adjustable interior shelves

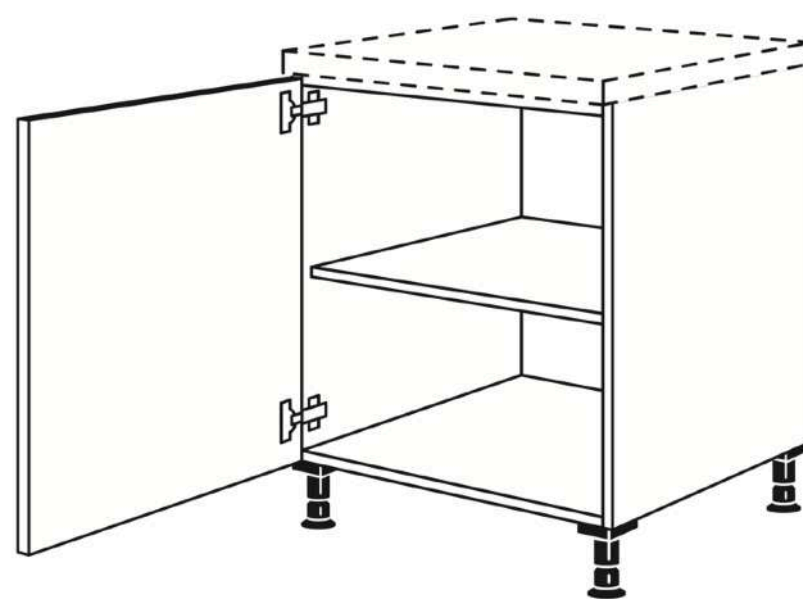

WALL CABINETS

The number of adjustable shelves provided for wall cabinets is based upon cabinet height:

- Heights 15" and below = 0 shelves
- Heights 18" - 24" = 1 shelf
- Heights 27" - 39" = 2 shelves
- Heights 42" and above = 3 shelves

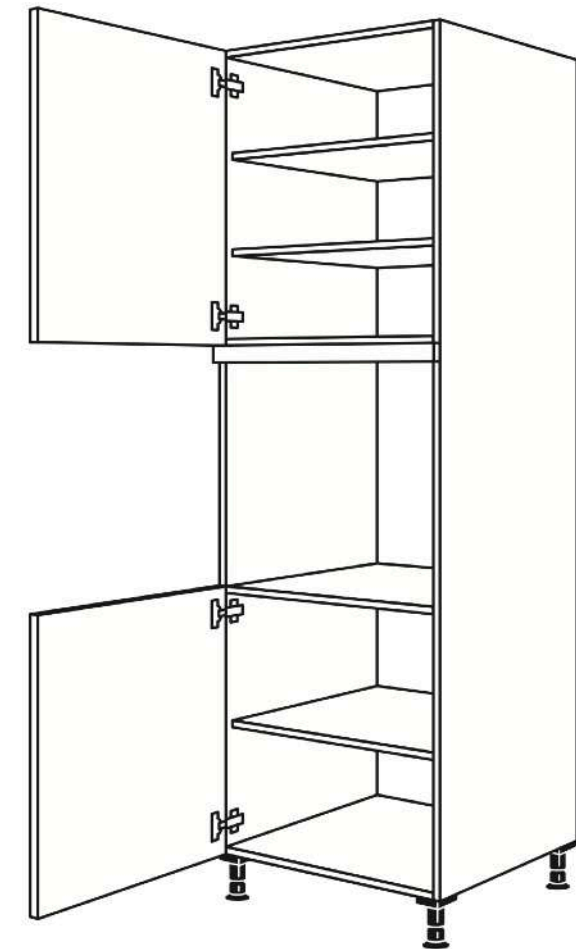

BASE CABINETS

The number of adjustable shelves provided for base cabinets is based upon cabinet type:

- Standard base = 1 shelf
- Base with 1 drawer = 1 shelf
- 3 Drawer base = 0 shelves
- 4 Drawer base = 0 shelves

TALL CABINETS

- The number of shelves provided for tall cabinets largely follow the same rules described for both wall and base cabinetry
- Slight differences may apply for certain tall cabinetry units

All interior shelves are 5/8" white melamine direct coated panels

BOXES

Panels

All cabinet ends come with a 3/4” panel that is an exact match of your cabinet doors to give your kitchen a truly custom feel. All panels are sized to be installed flush with the doors of your cabinets, resulting in a high-end, built-in look.

PENINSULA SIDE PANEL

ISLAND SIDE PANEL

END PANEL

Panels include end panels, fridge side panels, and peninsula / island sides and backs

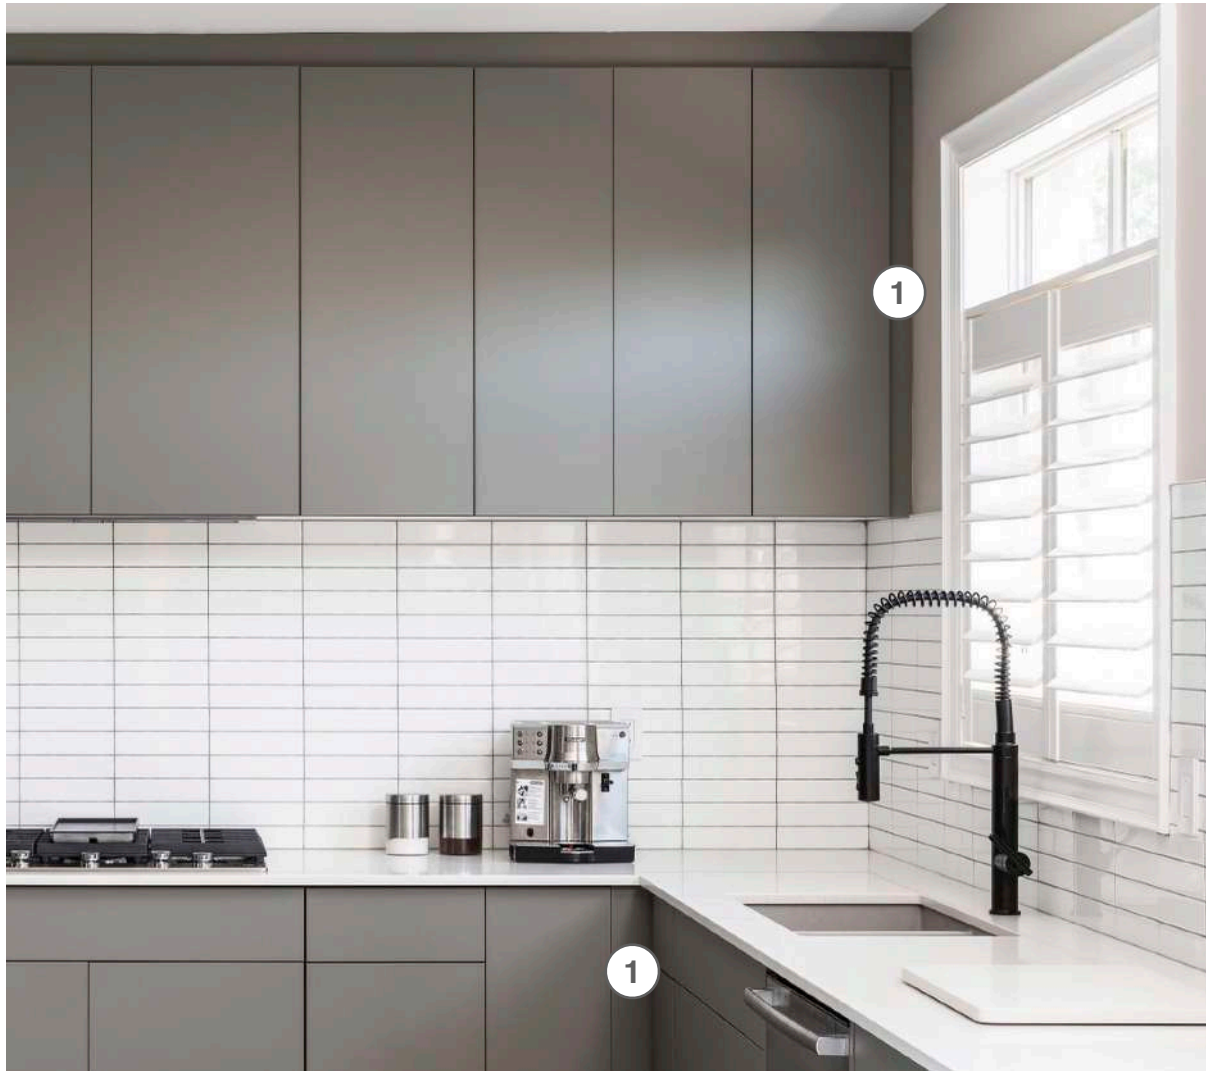

BOXES

Fillers and Plinths

All filler cabinet components are made of a 3/4” panel that is an exact match of your cabinet doors. Plinths and fillers are used on almost every kitchen we design to give a custom built-in look.

VISUAL KEY:
