### LAND TAX RAISES N\$400M IN REVENUE

A recent publication by the Institute for Public Policy Research (IPPR) reports that land tax has raised over N\$400m in revenue since its inception. This article looks at the redistribution of farmland to disadvantaged Namibians through the Affirmative Action Loan Scheme and the National Resettlement Policy, and also comments on the lack of information available in relation to outputs and outcomes.

The article can be accessed via the following link:

[Land tax raises N\\$400m in revenue - Truth, for its own sake. \(neweralive.na\)](#)
