

# AUDIO GUIDES

Entertain, Educate, and Invite Feedback.

With Engage by Cell's audio guide platform, turn your visitor's phone into a virtual docent.

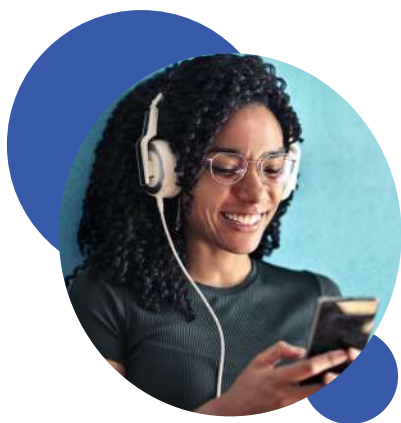

## How Does It Work?

Our web-based platform makes it easy for your organization to dial in and record an unlimited number of audio prompts. Already have content? Take existing audio clips and upload them to our platform.

- Artists interviews
- Exhibit highlights
- First-person historical accounts
- Tours in multiple languages
- Make changes at any time — no IT department needed

## Want to try it out?

**(408) 794-7877**, then press any number from 1-20 followed by the (#) key.

## Gather Feedback on Audio:

Allow visitors to dial in and leave voice feedback. Repurpose interesting comments and stories into your audio tour.

## Informational Hotlines:

Provide helpful information on current exhibits, special events, ticketing, hours, and safety guidelines.

## Still Offering Audio Equipment?

Headsets and wands touched by thousands of people are now a public health and safety hazard. Even with sanitary precautions, your visitors may still avoid them.

Audio Guides give your visitors the freedom to explore a museum in their own way and in their own time.
