

Your employees will never miss another notification with an Internal Employee Texting Platform

What communication tool works on almost every cell phone, requires no internet, needs no training, and costs mere pennies per message to send?

Text Messaging.

Emails are often ignored and aren't a good fit for non-desk employees. So why not consider using text messaging to communicate with your employees about:

- Emergencies
- Open enrollment deadlines
- Inclement weather alerts
- Links to info on your company website
- Inspirational messages to support company culture
- Birthday or anniversary congratulations
- Event reminders

Reminder: Open Enrollment ends this Friday, 11/30. For more information visit: <https://bycell.co/29bd>

Engage by Cell's text messaging platform has many unique features

Sequencing

Send and schedule series of text messages on as an ordered series

Text Scheduling

Save time by scheduling a series of texts for future dates and times

Text Chat

Respond to text recipients one-on-one via our administrative dashboard

List Segmentation

Create an unlimited number of targeted lists of text recipients

SMS Opt-In

Embed a form into your website and allow people to self-enroll to receive your text messages

MMS

Text out multimedia messages with images, GIFS, video or audio content

Text messaging is the instant, clear, communication tool your employees will thank you for.
