

Create Instant Audience Engagement with Mobile Surveys, Quizzes and Polls

Your presentation and visuals may be flawless, yet your audience may still pay more attention to their phone. So how can you keep them engaged?

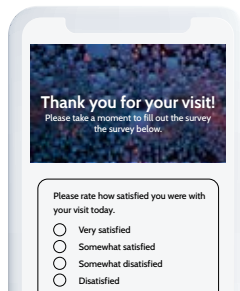

Don't compete with a phone. Use it.

Instead, turn your one-sided monologue into a real-time dialogue with Engage by Cell's mobile surveys, quizzes and polls.

Through our mobile web app builder, you can collect information, gather useful feedback, and test knowledge during meetings and events.

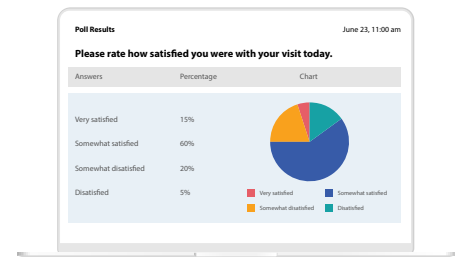

Improve your event in just three simple steps

1. Create your survey, poll, or quiz in the no-code web app builder.

Thank you for opting to take our survey! Please click the link below to participate.
<https://bycell.co/3893>

2. Send users a text or email with a link to your mobile page.

3. Review submissions in real time in the reporting dashboard.

And don't worry, there's:

- No app to download
- No help from IT needed

Imagine the positive outcomes:

- Take an instant pulse of your audience
- Correct knowledge gaps in real time
- Use valuable feedback to improve future events
