

# Get Participants Talking with Live Polls and Voting

Whether you're running a team meeting, training session, or large conference, Engage by Cell's Live Polls and Voting service makes audience interaction easy.

With Live Polls and Voting, you can screencast discussion questions, gather feedback, and display results immediately.

## All It Takes Is a Simple Text Message

Perfect for today's mobile-centric world, your audience members will simply text a keyword to a code, receive a web link in response, and join the fun. Thoughtful responses and brand new insights are just a few clicks away.

- From our administrative dashboard, push out a poll question via text message
- Display the responses in real time, adding charts or tables if needed
- Detailed analytics store the responses for future use

## What Content Will You Push Out?
