

GPD3 Series

GranVille® LED Premier – Prismatic Acorns

Typical Applications

- City Streets
- Downtown Renovation
- Historical Districts
- Campuses
- Residential
- Parking Lots
- Parks
- Walkways

The evolution of a classic continues with this third generation of the GranVille® LED Premier luminaire. GPD3 Series combines classic historical aesthetics with the latest LED technology to provide optimal value in roadway and area applications. The new design of the GPD3 fully utilizes the HoloPhane® Classic glass optics to produce the best performance in its class with a visually comfortable and "wholly luminous" appearance. With a slightly larger refractor globe than the GVD3, the GPD3 scales better in taller mounting heights.

- + Replaces 70-250W HID
- + Durable, high-performance prismatic glass refractor
- + Lumen packages from 3,400-14,000 lumens and up to 150+ LPW
- + Type III and V optics with optional nighttime-friendly Lunar Optics®
- + 2700K, 3000K, 4000K and 5000K CCT
- + Industry-leading 20kV/10kA surge protection
- + 20+ years service life with lumen maintenance of L87/100,000 hours
- + Variety of DTL® control options including the DLL Elite 20-yr photocell or Itron-enabled DSN wireless network node
- + Advanced nLight® networked controls and occupancy sensors
- + Utility-friendly design simplifies installation and maintenance
- + Robust cast aluminum construction and finish
- + Customize with a wide assortment of decorative trims and accessories
- + Certified OEM retrofit kits available

GPD3 Series

GranVille® LED Premier – Prismatic Acorns

A variety of housing styles, finials and trim options allow you to customize the GPD3 for a unique architectural statement in your site or streetscape.

(MS) Utility

Pkg	Watts	LPW	Lumens
P10	23	151	3,430
P20	37	145	5,430
P30	57	154	8,780
P40	78	151	11,700
P50	95	146	13,950

(LS) Utility Leaf

Increased lumen packages and improved lumens per watt (LPW) provide a great opportunity to save energy, while maintaining light levels and excellent uniformity in any application.

The GPD3 Series was designed as both a stand-alone LED platform as well as an OEM certified retrofit to your existing GranVille luminaires.

- 1** High Efficiency LED Engine
- 2** Borosilicate Prismatic Glass
- 3** Cast Aluminum Construction
- 4** Reduce Uplight with Optional Lunar Optics
- 5** Multiple Control Options
- 6** Advanced Thermal Management
- 7** Utility-Friendly Installation Features
