### What is Instant Booker?

Instant Booker eliminates back-and-forth emails and replaces them with a one-click scheduling experience for your customers.

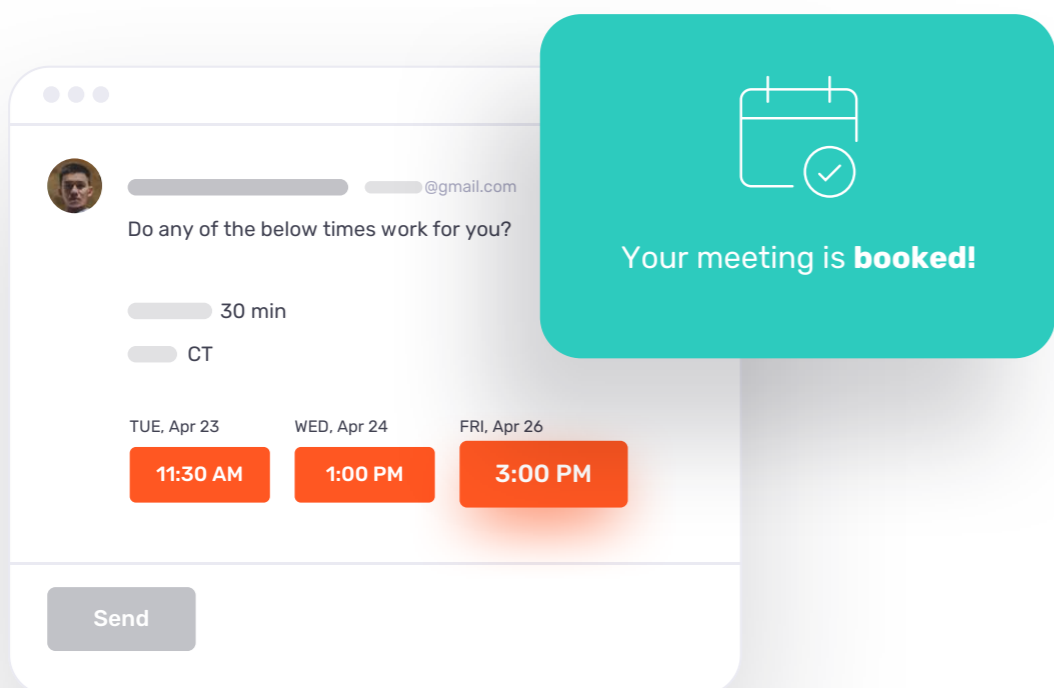

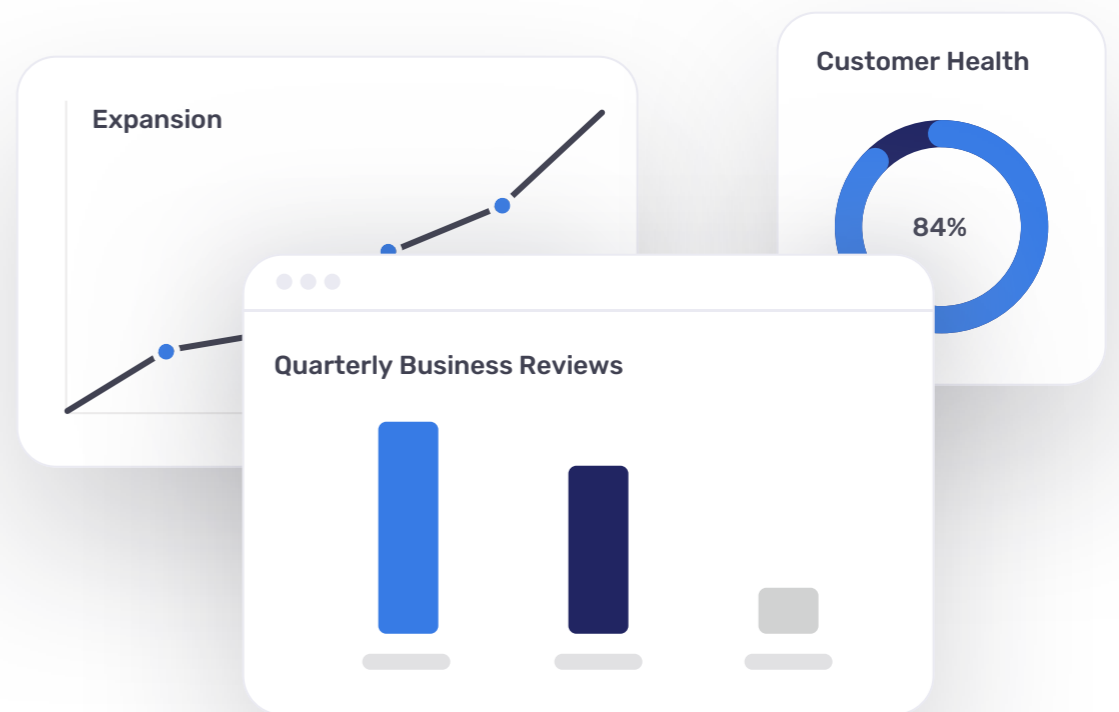

Whether you are booking with one guest or many, Instant Booker lets you quickly share availability, control your calendar, and automate every manual task associated with scheduling.

Now you can meet with your customers with ease, automate invites and reminders, and report on every meeting held.

### Total visibility and control

Perfect for scaling CS teams who need to automate manual tasks and have accurate reporting by meeting types, no-shows, cancellations, and more.

- Automatically create and update the appropriate CRM fields upon scheduling.
- Leverage unlimited custom meeting types for consistency and reporting on things like QBRs, support calls, health-checks, etc.
- Use dynamic tags and templates to automate every invite, reminder, and notification to save time and increase show-rates.

### Your customers deserve a better scheduling experience

Your customers shouldn't have to do all the heavy lifting to schedule a meeting (but neither should you).

Instant Booker does what Calendly and others can't:

- One-click booking with no tedious form fills
- Effortless two-way SFDC integration
- Easy group scheduling
- Chrome extension to book directly from your existing tech stack
