

Hello!

Congratulations and welcome to the Bayside Groups' family! You have successfully completed the Bayside Groups' online training! You play an integral part in helping people grow in their relationship with Jesus AND experience community.

Now that you have completed the training, your group is available to see at <http://planningcenter.com>. As a group leader, you have the ability to edit the title of your group and its description, add video links and pictures, and create events for when and where your group will meet.

We all need someone to cheer us on as we do ministry. We're not created to do ministry alone, and so you will be given a Bayside Groups Coach. Your coach will be reaching out to you shortly for an introduction. Coaches are available to pray, encourage, and support you as well as answer any questions you may have about your group. When you locate your group on Planning Center, which is our platform for Bayside Groups, you'll find your coach's name listed as a leader of your group. Your coach won't be leading your group with you but we put his/her name on the roster as a co-leader so you can clearly identify their name and contact information.

Again, THANK YOU for leading a Bayside Group! We are looking forward to making a difference together.
