Product images on this flyer should only be used as a guide or point of reference. Actual samples should be inspected at your nearest retailer to confirm texture and colour before making a purchase decision. It is also noted colour appearance can vary depending upon the type of light under which a sample is viewed and light sources where the flooring is installed. Please note some colours in this range (as noted above and on front of samples) have a visual design effect that results in tonal variations amid the boards for a natural timber look. Please seek to view larger samples and consult with your retailer for further advice. *Subject to proper installation and maintenance.

Avvio
