

Mecho®/5x

Lift larger. Lift heavier. Experience Effortless.

Experience the trusted performance of our best-selling manual shade system

The Mecho/5x super-powers the clutch that created the commercial shading industry. Our innovative, patented technology allows our manual shading system to lift larger, heavier shades and provide a consistent, nearly effortless user experience. No matter the size of the shade, the pull force is within ADA standards, something that our competitors cannot say about their shades.

Mecho/5 and 5x manual shades are the only complete hardware-and-shadecloth system with a twenty-five-year Limited Warranty including 100% replacement and no depreciation over the life of the warranty.

For multi-banded applications, Mecho's adjustable shade coupler is included to speed the installation process and ensure precise, even and consistent shade heights and eliminate hembar misalignment.

When installed with EcoVeil®, EcoVeil Sheer, or AcoustiVeil shadecloth, the Mecho/5x is the only complete window-shading system with Cradle to Cradle Bronze™ certification.

Features

- Allows for larger multi-banded shades—including 5 bands—up to 240" wide*
- Allows for larger, single shades up to 180" wide to eliminate light leaks*
- Engineered for maximum lift with the least amount of effort

** dependent on fabric weight*

- Smoother, quieter, and easier operation
- Durable and built for the toughest, largest and heaviest commercial applications
- Single or double-shade bracket options
- Greater angle on shade pull chain for more versatile operation
