

Acoustic **Clouds**

A R K T U R A

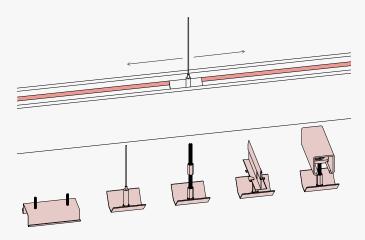

Our Key Features

SoftShapes™ Hex brings the best of Arktura's versatility and Soft Sound® acoustics to match the extent of your creative imagination. Complete one-of-a-kind designs not previously attainable with these acoustic clouds available in multi-sided form factors. Install in tandem with other geometric Arktura modules such as SoundStar® and SoftGrid® for truly unique configurations.

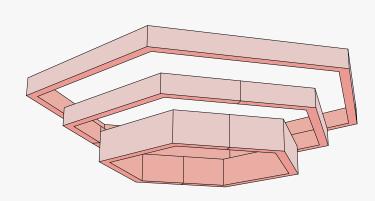

Reduce Noise & Enhance Acoustics

Soft Shapes™ Soft Sound® material reduces the impact of noise from everyday sonic discomforts such as outside noise, typing, and chatter, resulting in a more pleasant and productive environment. In addition, its material works in concert with the design to help reduce and control reverberations leaving a lasting impression at scales ranging from assembly halls to conference rooms.

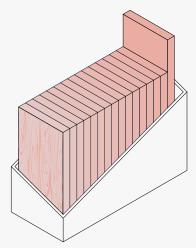

Adjustable & Flexible Attachments

Accommodate various plenum and site conditions thanks to adjustable drop locations and 5 available attachment methods, allowing installation ceilings or walls.

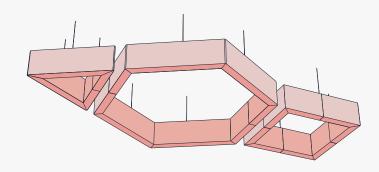

Profiles to Suit Your Needs

SoftShapes[™] offers a wide range of available sizes that can be configured to best suit your needs. For example, align multiple shapes adjacent to each other or stack modules of varying sizes.

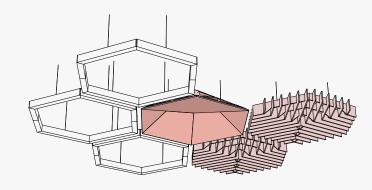

Expansive Soft Sound® Library

Choose from an extensive library of Soft Sound® colors and premium wood textures. Soft Sound® material provides impressive looks and top-quality sound attenuation.

Configure SoftShapes™ in Creative Ways

SoftShapes[™] is available in various shapes, widths, and depth options, giving you complete design flexibility in any space. In addition, it can be mixed with other SoftShapes[™] modules to create new and exciting geometric systems for wall and ceiling installations.

Compatible with SoundStar® & SoftGrid®

Select SoftShapes™ Hex modules are compatible with Arktura's modular hexagonal acoustic cloud systems. Use together to bring transformative design variation to any space.

Standard Configurations

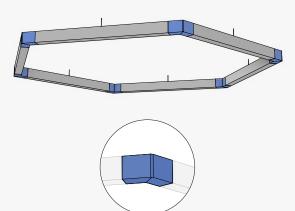

SoftShapes™ Hex modules are available in 45 different size configurations and 4 assembly types.*

3 Assembly Types: All Ship Flat Packed (Corners included in Module Assembly)

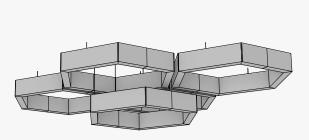

Ceiling

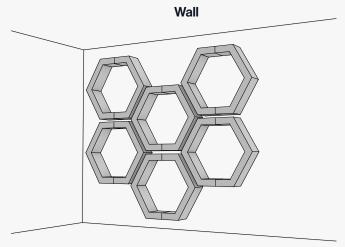

1 Assembly Type: Ships Pre-Assembled + Flat Packed (Pre-Assembled Corner + Flat Packed Beams)

Multiple Modules

SoftShapes™ may be installed in tandem with multiple modules to create new layouts, both in ceiling and wall applications.

Refer to the Installation Manual for more info.

Attachment Details

SoftShapes™ modules feature adjustable drop locations on each side of the system, allowing it to adapt to various installation conditions.

(!) Recommended Drop Points

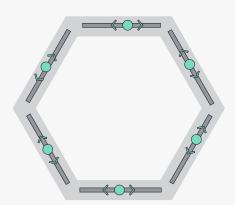

Modules smaller than 54" need 4 drop points. (SoftShapes™ Hex 24 shown.)

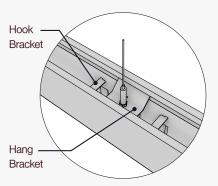

Modules bigger than 54" need 12 drop points. (SoftShapes™ Hex 60 shown.)

Adjustable Drop Locations

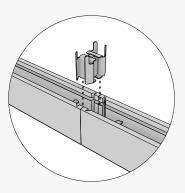

Check install manual for more info.

Understanding the System

Combining With Other SoftShapes™

Install SoftShapes™ in tandem with similar sized SoftShapes™ systems to create one-of-a-kind combined geometric layouts.

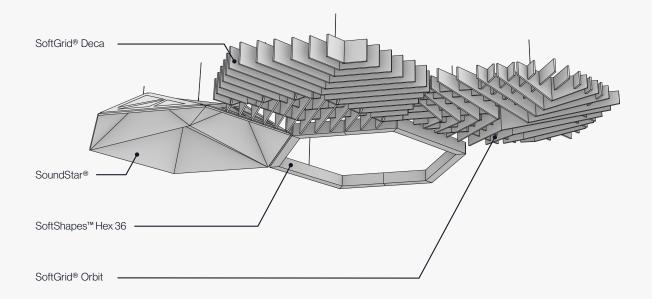

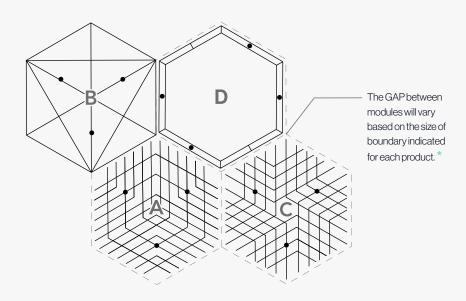

Understanding the System

Combining With Other Products

SoftShapes™ Hex can also be installed in tandem with other hexagonal cloud systems, such as SoftGrid® Deca, SoftGrid® Orbit, SoftGrid® Flux, and SoundStar® for even more acoustic design possibilities.

SoftGrid® Orbit (A) SoundStar® (B) SoftGrid® Deca (C) SoftShapes™ Hex 36 (D)

Strut Mount

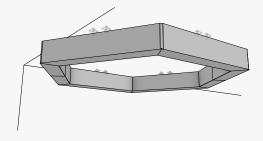

Grid Mount

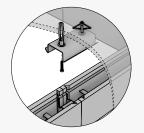

Direct Mount

Available in both wall & ceiling attachment.

Available Finishes

Baffle Color

Soft Sound® Color Group A Standard

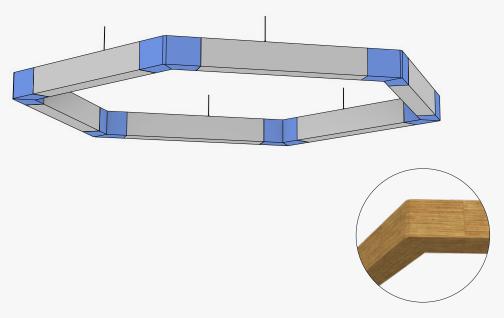

Soft Sound® **Wood Texture**

Premium

(i) As with natural wood, variation in color and grain is expected and grain will not align across panels.

① Modules may be comprised of Multiple Segments. Seams may be subtle in appearance due to the natural variation in wood texture.

Seaming Detail

① Due to the nature of non-woven materials, light may pass through Soft Sound® in any thickness or color. A translucent appearance is most apparent in lighter colors and thin material when a light source is present behind the material. Arktura makes no claims or warranties about the material performing as opaque in any circumstance.
