Software Factory

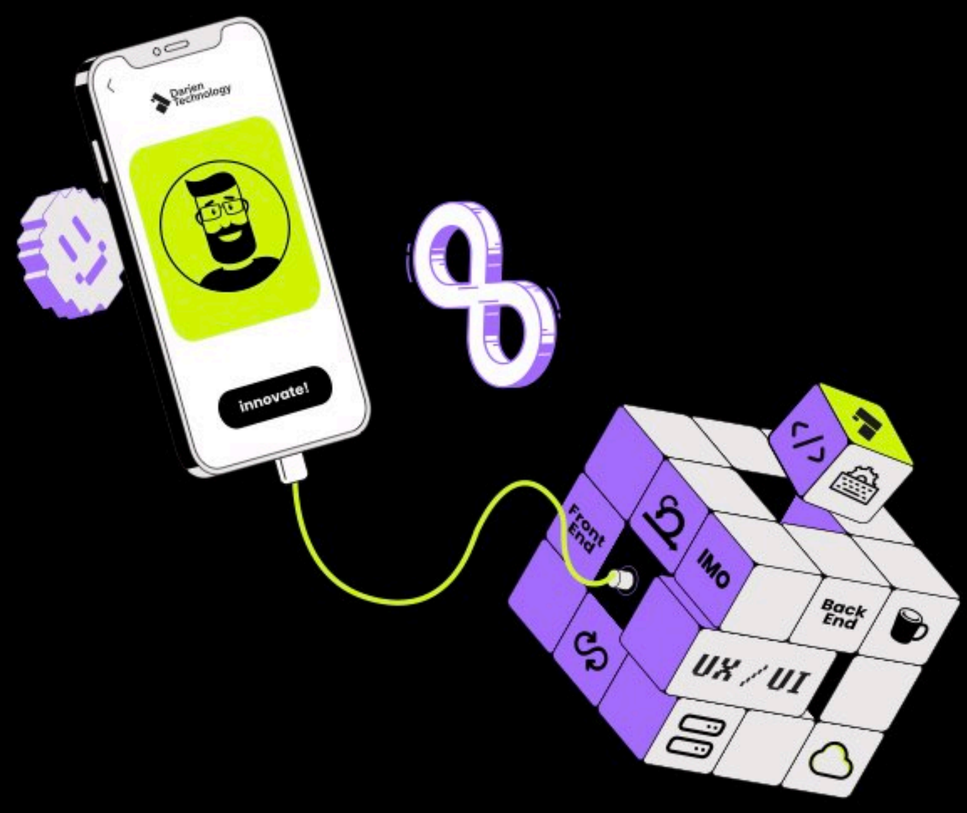
Innovation in every code line



In every project we take on, we embrace the motto " Let's innovate through code", and incorporate it throughout our organization. We focus on research and development, which are the fundations that guide our path and allow us to explore new opportunities and challenges in the ever-changing technology scene.

Our highly skilled team works in perfect harmony to create captivating and functional user experiences on the Front End, while focusing on designing a Back End with secure and strong architectures to ensure optimal performance.

We are ready to turn your ideas into successful digital realities with a solid combination of creativity and technical expertise.

We are leaders in the creation of end-to-end digital solutions, covering both Front End and Back End.

Let us be your allies in the journey to digital transformation.

Darien Technology
Software Factory

Meet the 3 foundations of our software factory. **The ideal fusion between technology and creativity** to create successful solutions.

1. Innovation Consulting

We guide you through the process of shaping your business idea and laying the foundations for a true solution thanks to our highly trained and multidisciplinary team.

01

2. UX/UI Design

Focused on designing the best user experience. We seek to elevate usability and satisfaction of your digital products.

02

3. Software Development

Dedicated to the development of innovative solutions that meet the specific characteristics and requirements of each client.

1. Innovation Consulting

What's an IMO?

The Innovation Management Office is the core unit in our Innovation Consulting. Its purpose is to transform business ideas into concrete technological solutions.

A highly qualified and multidisciplinary team, made up of experts in different areas, forms our office, which allows us to adapt and address the specific needs of each project with excellent efficiency.

Thanks to this framework, we can guarantee a comprehensive and consistent approach to innovation management, thus driving the successful realization of ideas and the development of cutting-edge solutions that drive business progress and success.

Your ideal partner on the path to innovation.

Innovation Consulting *By* IMO

We are experts in:
UX/UI - Project Management - IT and infrastructure
Market research and business

2. UX/UI Design

Transforming experiences through UX/UI

As an essential part of our software factory, the UX/UI team embraces innovation and creativity to design the best user experience in digital products. In this space we create low, medium and high fidelity prototypes, paying special attention to detail to develop front-end designs adapted to various programming languages.

Our deliverables combine user experience expertise with functionality and development effectiveness.

Together with our highly skilled team and clear processes, we ensure that every project is a success in terms of design and functionality.

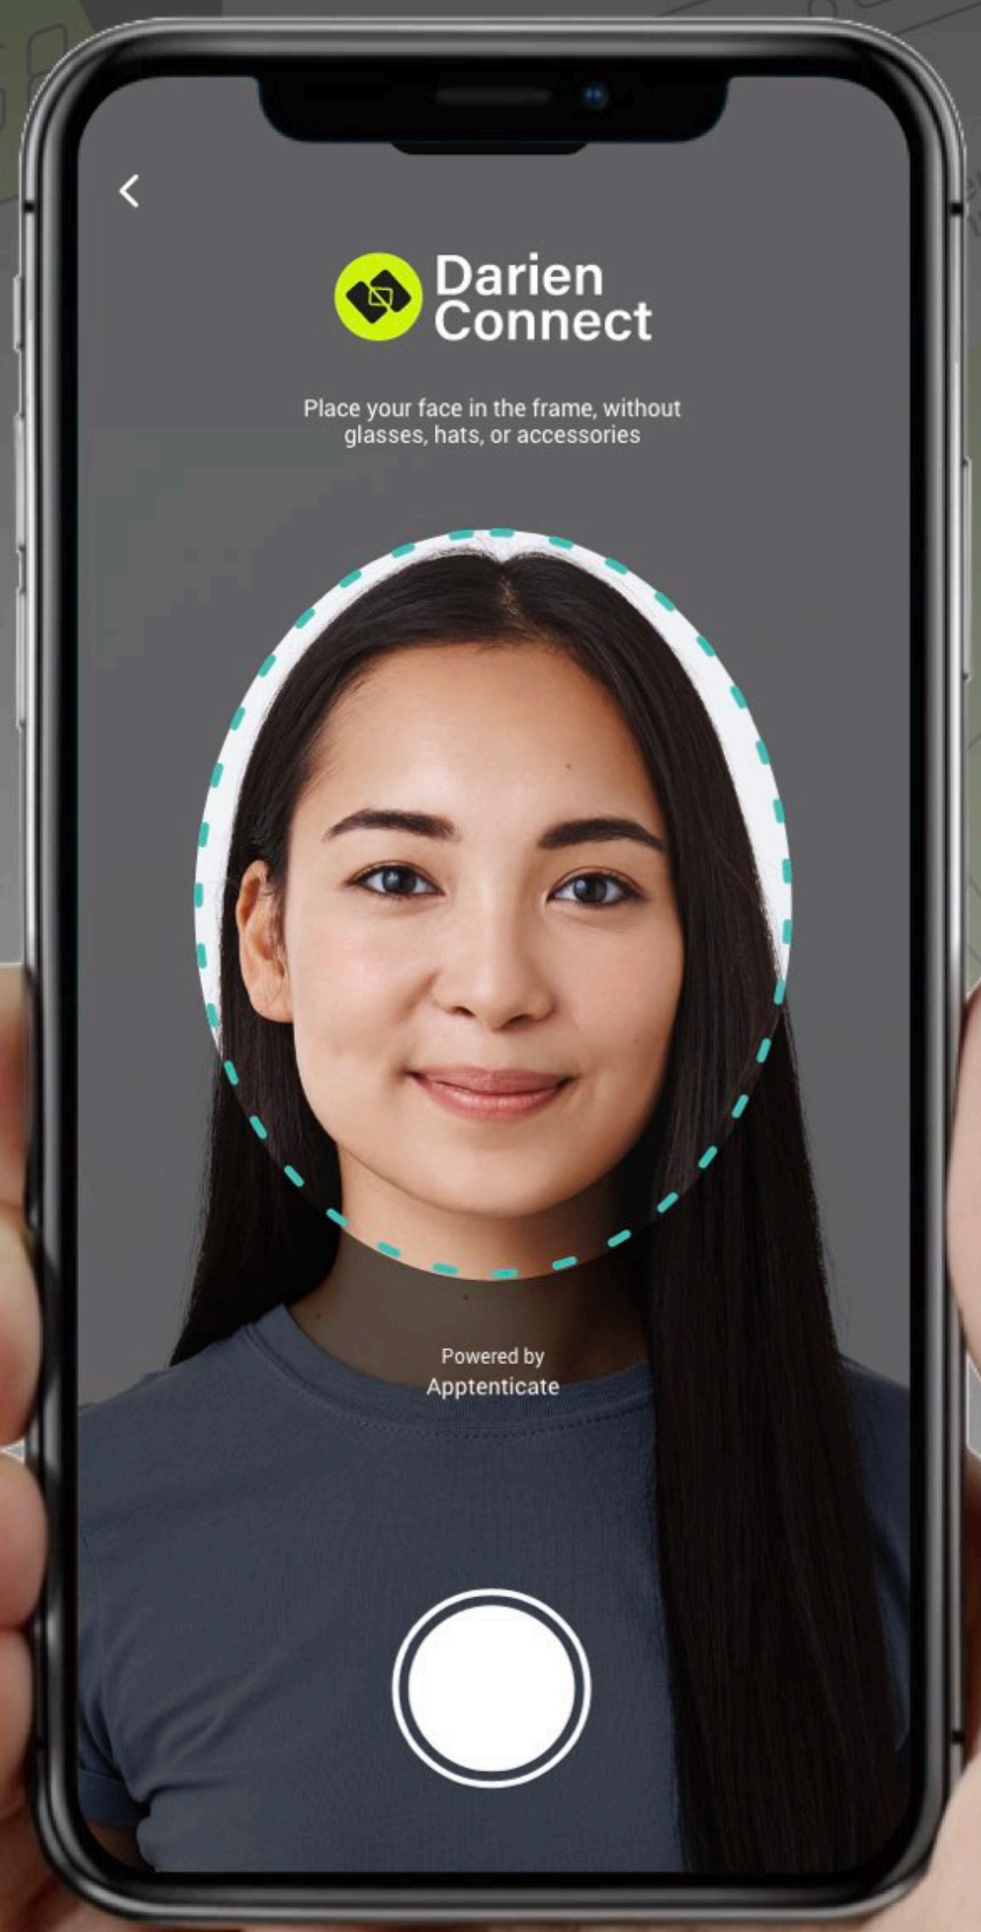
DarienConnect

Digital onboardings

Connecting Digital Experiences,
Simplifying Onboardings!



Darien Connect

Our solution

Darien Connect is a solution focused on digital onboarding experiences, putting at your disposal a set of innovative tools that facilitate the process.

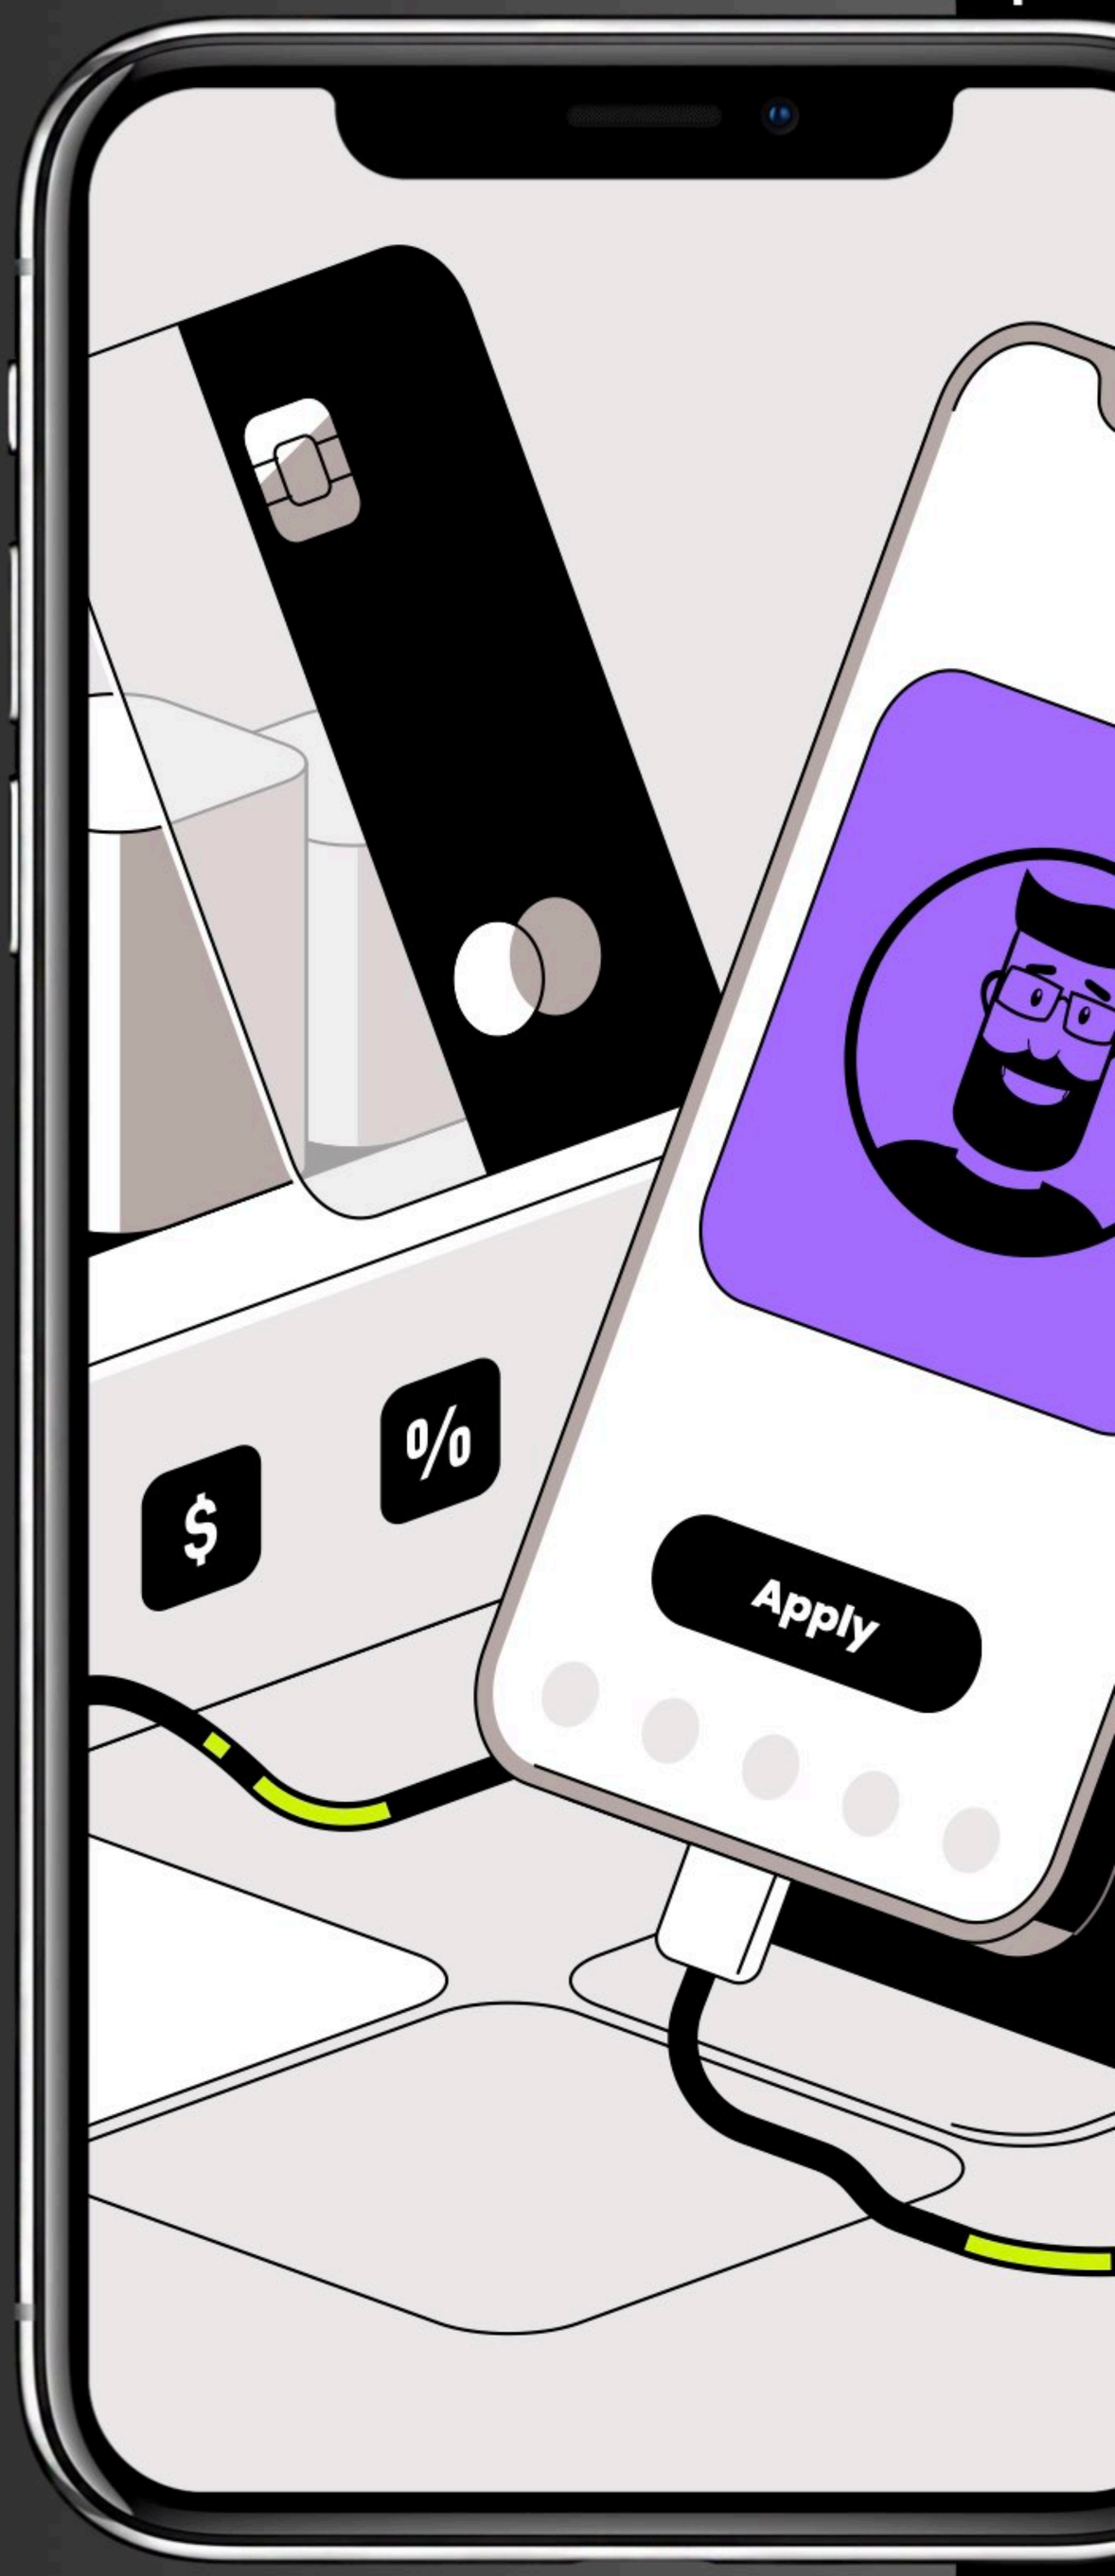
UX/UI Prototypes

We have designed a set of UX/UI prototypes based on use cases that are agile and flexible, adapt to your needs, and always follow best practices.

BIO

BI for onboarding provides:

- Strategic insight into the experience.
- It enables you to measure marketing success and customer experience during the onboarding.
- It offers valuable information for ongoing optimization.



Darien Connect

A carefully selected **Toolkit** that adds value:

- **Apptenticate** is a tool to securely and efficiently validate the user's identity using state-of-the-art technology.
- **DocuSign** speeds up the signing of documents, eliminating paper-based processes.
- **DT Hive** manages documents related to files that originated in the onboarding with metrics and notifications.
- **Software Development** with the capacity for development and integrations with third parties through our software factory.

Darien Connect, your solution towards smoother and more efficient digital onboarding powered by innovation and simplicity.
