## M3 VACUUM PUMP

Port Size: 1-1/2"

The Masport M3 vacuum pump is a robust rotary vane vacuum pump that are a workhorse in the pump priming industry and have been for decades. These pumps are a high quality, reliable and extremely durable product that performs exceptionally well.

Ideal to prime our range of mixed flow pumps for 8 to 26 inch.

View our Masport vacuum pump priming unit with engine, fittings and valves.

## DPS PUMPS

*All are pumps sets are made in house using quality components.*

Horsepower & Water

### LUBRICATION

- **Bottle Lubricator**

The bottle lubricator is a once through lubrication system. As the name implies the oil is fed into the pump only the one time and then will exhaust to outside atmosphere or oil catch mechanism.

### LUBRICATING OIL

- Do Not use recycled oils
  - As the pump is a precision machined mechanism it is essential to use the correct oil.
- The M3 oil recommendations are
- Castrol 890/68
  - Shell Vacuum Pump Oil S2R100
  - Oil company vacuum pump equivalents (BP, Caltex etc)

### POWER REQUIREMENTS

- Maximum Speed 1450rpm
- Maximum Power 6.0hp
