# Acrylic Design Associates

# We build a wide range of awesome.

Acrylic may be in our name, but we work with virtually any material to bring your vision to life. As one of the largest fabricators of our kind, we provide end-to-end services to meet any deadline, including:

- Design + Engineering
- Rapid Prototyping
- Fabrication – including CNC turning and extrusions, laser cutting and powder coating, heat treating (including annealing and metal hardening), robotic welding, LED lighting and much more
- Printing + Paint
- Assembly
- Warehousing
- Distribution
- On-site services

## The Leader in Sustainable Solutions

Acrylic Design brings a variety of eco-friendly innovations to our clients, helping them to meet their sustainability goals. Our new Recrylic®, for example, is the world's first line of certified recycled acrylic and the first to be widely available in North America.

- 100% recycled content + 100% recyclable
- Looks, performs and costs the same as virgin acrylic
- Closed-loop de-merchandising available
- Minimizes CO<sub>2</sub> emissions and carbon footprint
- GRS and RCC certified

**Recrylic**   
Certified Recycled Acrylic

## Why Acrylic Design?

We are known for delivering:

- High-quality, scalable solutions
- Fast turnaround and highly reliable customer care
- Turnkey services – all under one roof
- Proven ability to get things done right the first time
