

Dear [company] employees!

Please put tea packaging into
OTHER WASTE waste bin.

Most tea packages contain
plastics and do not belong into
the paper container.

If the white paper towels are
just in bio waste or wet, put
them into BIO waste bin.

Put used paper towels into
OTHER WASTE bin only if the
towels are colored (not white)
and in other than bio waste.

Do not put clean food
containers into OTHER WASTE
bin.

It would be better, if you put
them into CLEAN CONTAINERS
waste bin instead.

Thank you for your cooperation!

Our sorting feedback is made jointly with
Tootjavastutusorganisatsioon.

Average waste amount daily	Average contamination
4.3 kg	35 %
