About LITTA

- LITTA was founded in 2017 and is recognised as the leading digital waste management service
- The offering is focused around increasing recycling, sustainability and transparency
- We focus on the use of technology to transform the waste removal booking and collection process, offering our customers a frictionless journey

Our Standards

Our collection teams work to the LITTA standard, to provide a truly exceptional experience

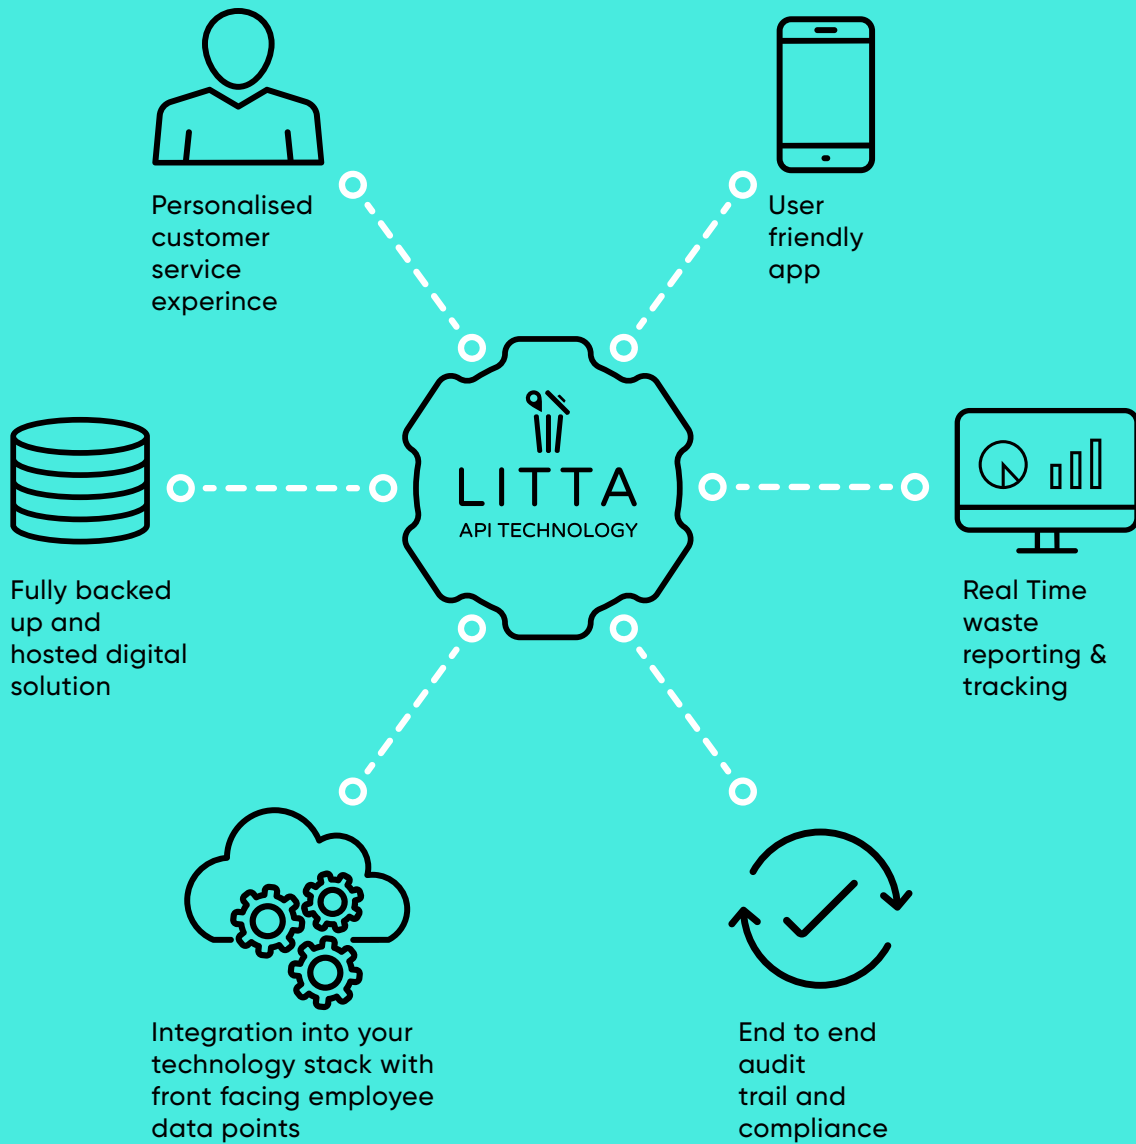

- Bookings can be made online via your bespoke booking portal or by contacting your dedicated account manager
- We will arrive within the allocated window and you will receive a driver tracking link when the team is en route
- Once the team is on site, before images of the waste will be taken and the waste will be loaded. Once the waste is loaded, after images are taken
- The team will sweep the area to ensure it is left clean and tidy
- A waste transfer note will be electronically sent across
- All the job information will be stored and we will provide you with key job metrics including before and after images, as well as a breakdown of the waste taken

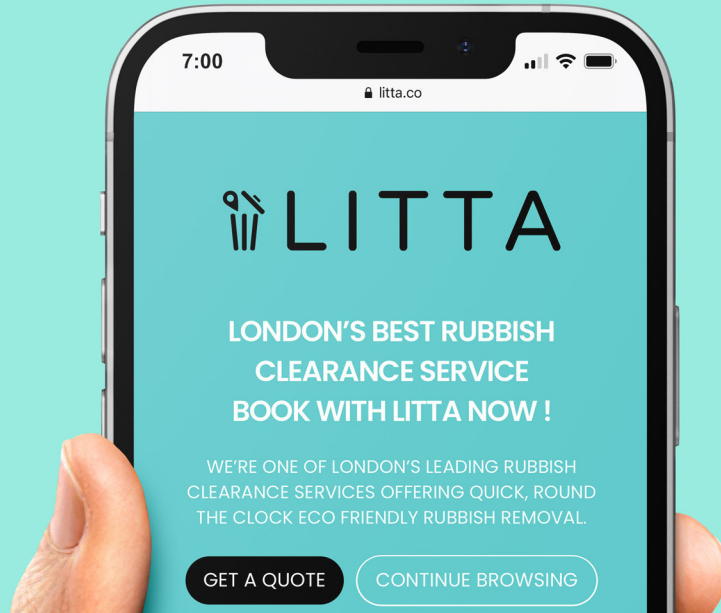

LITTA is rated number 1 on Trustpilot across all its industry categories

Technology Focused

LITTA's technology stack intergrates seamlessly across all customer touch points, offering a best in class end-to-end customer soultion.

Benefits

- Over 200 vehicles within our network
- We offer a one stop shop service, covering all major waste streams
- Same day waste collections, 7 days a week
- We aim to divert 100% of the waste collected from landfill
- Book in seconds online or over the phone
- End to end digital audit trail
- Provision of sustainability reports with the visibility of all key metrics and photos
- We are flexible and happy to accommodate special requests and out of hours collections

How we operate

LITTA partners with professional, fully insured, pre-vetted waste collection business. We aim to fulfil customer requirements by leveraging excess market capacity, which results in fewer vehicles on the road resulting in lower CO2 emissions and less pollution. By partnering with our trusted network, we are able to reduce fly tipping and increase recycling, working towards supporting the circular economy.
