- before the civil or administrative courts when the lawsuit triggers the Rental Civil Liability coverage under this policy,
- before the criminal courts, when civil interests concerning a Civil Liability Coverage are at stake and the victim(s) have not been disinterested, we have the right to lead the defence of the Insured or to join in and, on behalf of the civilly liable Insured, to appeal.

However, we can only appeal with the agreement of the Insured, if he or she has been cited as a defendant, with the exception of an Appeal limited to civil interests.

On the other hand, we can appeal without the consent of the Insured, in the event of a summons for homicide or unintentional injury and if we have intervened in the trial.

No acknowledgment of liability, and no settlement occurring without our agreement will be enforceable against us.

However, the admission of a material fact or the mere fact of an act of assistance that everyone has a legal or moral duty to perform is not considered as an acknowledgment of liability.

6. Our intervention in the event of a claim

Formalities to be observed

You must report the claim as soon as you become aware thereof, and no later than 5 working days later.

Failure to comply with the deadline for reporting the claim, and to the extent that we can establish that this results in prejudice for us, will result in your loss of the benefit of coverages under your policy for the claim concerned, unless it is due to a fortuitous event or force majeure.

Failure to complete the formalities or non-observance of the deadlines for document submission will entitle us to claim damages from you proportionate to the damage resulting from this for us.

You need to

- make every effort to limit the consequences of the loss as much as possible
- Specify:
 - the nature of the incident
 - the circumstances in which it occurred
 - the known or presumed causes or consequences,
 - the nature and approximate amount of the damage
- send us within 20 days (except in cases of force majeure), an estimated statement, certified true and signed, of the damage caused
- send us within 48 hours of their receipt all notices, letters, summons, convocations or citations, extrajudicial documents, or procedural documents which are sent or notified to you concerning the incident
- take all precautionary measures to claim and safeguard the insured items.

Terms of application of coverage amounts

- Determination of insured sums

Cover is granted either per claim or per insurance year regardless of the number of claims, up to the amounts and subject to the deductibles set out in the special conditions or in the table of coverage amounts and deductibles.

Trial and discharge costs or other settlement costs will not be deducted from the coverage amount. However, in the event of a conviction exceeding this amount, they will be borne by the Company and by the Insured in the proportion of their respective shares in the conviction.

- Provisions relating to fixed coverages by claim

Whenever a coverage is granted up to a fixed amount per claim, it applies to all claims relating to damage or all damage resulting from a harmful event or a set of harmful events having the same technical cause.

The deductible applied on the date of the harmful event (or of the first harmful event for a set of harmful events having the same technical cause).

It is then automatically reduced by compensation paid or due until it is exhausted.

Compensation for damage to the building

We cover the building at new value, that is to say on the basis of a value equal to that of the reconstruction of the building on the day of the harmful event with materials of identical quality (current materials, performance equal to those damaged building and in common use in the region), subject to the following provisions.

- The reconstruction value, as determined by the expert, is lower than the market value of the building on the day of the harmful event:

We deduct the part of obsolescence exceeding 25% from the estimated replacement value. However, the reconstruction of the building must be carried out within 2 years following the harmful event and on the site of the damaged building without significant modification of its initial purpose; the above compensation terms will be modified in the following cases:

- if the impossibility of reconstruction is due to force majeure that did not exist, or was unknown to the Insured when the policy was taken out, the part of obsolescence exceeding 12.5% will be deducted
- if the impossibility of reconstruction is due to force majeure existing when the policy was taken out, and if we can prove that the Insured was aware of it at the time of subscription, the percentage corresponding to the total obsolescence will be deducted.

- The reconstruction value, as determined by the expert, is higher than the market value of the building on the day of the harmful event:

- if the building is not rebuilt within 2 years of the loss, we will pay you compensation corresponding to the market value of the building on the day of the harmful event

- if the building is rebuilt within 2 years of the harmful event on the site of the damaged building without significant modification of its initial purpose, we will pay you compensation corresponding to the complement between the replacement value and the market value. We will deduct the part of obsolescence exceeding 25% from the replacement value.

With regard to buildings constructed on the land of others, in the event of reconstruction undertaken on the rented premises within a period of one year from the end of the appraisal, the compensation will be paid as and when the works are executed.

If the building is not rebuilt as a result of an act having a certain date before the harmful event for which you, at any time, must be reimbursed by the landowner for all or part of the construction, the compensation cannot exceed the sum stipulated in the rental agreement for this purpose.

In the absence of an agreement between the owner and the tenant, or in the absence of a reply from the latter, our compensation will be equal to the value of the materials assessed as demolition materials.

Compensation for damage to furniture

Compensation will be given for the usual furniture, within the limit of the amount indicated in your personal conditions, at replacement value, that is to say on the basis of a value equal to that of the replacement of the furniture on the day of the harmful event, with current products of equal performance, subject to the following provisions:

- we will deduct the part of obsolescence exceeding 25% from the replacement value.

However, the replacement of furniture must take place within 2 years following the harmful event; if you do not justify the replacement of the furniture by the production of invoices, our compensation will be calculated after deduction of the totality of the obsolescence

- we will deduct the entire obsolescence from the replacement value for the following items:

- furniture held in basements

- laundry

- motorised appliances of all kinds, motors and electrical and electronic devices, electrical conduits and their accessories, and office automation equipment and its accessories.

The obsolescence is estimated on a flat-rate basis on the amount of these goods, replaced or repaired (labour deducted), at:

- 1% per month, i.e., 10% per year, with a maximum of 80% for motorised appliances of any kind, motors and electrical and electronic appliances, and office automation equipment and its accessories

- 2.50% per year, with a maximum of 50% for transformers.

Application of deductibles and intervention thresholds

If a deductible is applicable, you bear:

- any damage the amount of which does not exceed that of the deductible

- the amount of the deductible, if the amount of damage is greater than the deductible.

False statements

In the event of false statements made knowingly about the nature, causes, circumstances or consequences of a claim, you will lose the right to claim for the loss in question under the policy.

Multiple insurance

In the event of a claim covered by several insurance policies, you can obtain compensation for your damages by contacting the insurer of your choice, regardless of the date on which the policy was taken out.

In this case, you must inform us about the name of the insurers concerned and the amount of sums insured with them.

However, your policy coverage only takes effect within the limits set above.

When several insurances against the same risk are taken out fraudulently or with the intention of deceiving us, we can invoke the nullity of the policy and seek compensation for damages.

Calculation of the compensation

If the compensation cannot be determined by mutual agreement, it will be evaluated by means of an amicable assessment, subject to our respective rights.

You may be assisted by an expert

If your expert and ours fail to agree, they may call in a third expert, and all three operate jointly and by majority vote.

If one of the parties fails to appoint an expert or, for the two experts, to agree on the choice of the third, the appointment will be made by the President of the High Court of the Insured's domicile, or the place where the harmful event occurred.

Each of us will pay the costs and fees of our own expert and, if necessary, half of those of the third.

ARTICLE 5 - DATA COLLECTION

The Insured acknowledges being informed that the Insurer processes his or her personal data in accordance with the regulations on the protection of personal data in force, and that, furthermore:

- answers to the questions asked are mandatory, and in case of false statements or omissions, the consequences for the Insured may be the nullity of the adhesion to the policy (Article L 113-8 of the Insurance Code) or the reduction of compensation (Article L 113-9 of the Insurance Code)

- The processing of personal data is necessary for the adhesion and execution of its policy and its coverages, for the management of commercial and contractual relations, or for the execution of legal, regulatory or administrative provisions in force.

- data collected and processed are kept for the duration necessary for the execution of the Policy or the legal obligation. These data are then archived in accordance with the durations provided for by the prescription provisions.

- The recipients of data concerning them are, within the limits of their attributions, the services of the Insurer in charge of the signing, management and execution of the Policy and the coverages, its delegates, agents, partners, subcontractors, and reinsurers in the performance of their duties.

They may also be forwarded to professional bodies as well as to all persons involved in the policy, such as lawyers, experts, legal assistants and ministerial officers, curators, tutors and investigators.

Information concerning them may also be transmitted to the Policyholder, as well as to all persons entitled as Authorised Third Parties (courts, arbitrators, mediators, ministries concerned, supervisory and regulatory authorities and any public bodies authorised to receive them, as well as the services responsible for control such as statutory auditors, external auditors and departments in charge of internal control)

- As a financial institution, the Insurer is subject to the legal obligations resulting mainly from the Monetary and Financial Code concerning the fight against money laundering and the financing of terrorism and, as such, it implements a policy monitoring process that may result in the drafting of a suspicious transaction report or an asset freeze measure.

Data and documents relating to the Insured are retained for a period of five (5) years from the end of the policy or termination of the relationship;

- The Insured's personal data may also be used as part of an insurance anti-fraud processing that may lead, if appropriate, to being included on a list of persons presenting a risk of fraud.

Such registration may have the effect of extending the study of the person's case file, or even reducing or refusing the benefit of a right, a service, a policy or a service offered.

In this context, personal data concerning the Insured (or concerning the persons who are party to or interested in the policy) may be processed by any authorised person intervening within the entities of the Insurer Group in the fight against fraud. These data may also be intended for authorised personnel of organisations directly concerned by fraud (other insurance organisations or intermediaries; judicial authorities, mediators, arbitrators, court officials, legal officers, third-party organisations authorised by a legal provision and, if applicable, victims of acts of fraud or their representatives).

In the event of a fraud alert, data will be kept for a maximum of six (6) months to evaluate the alert and then deleted, unless the alert proves to be relevant. In the event of a relevant alert, data will be kept for up to five (5) years from the date of closure of the fraud file, or until the end of the legal proceedings and the applicable limitation periods.

For persons registered on a list of suspected fraudsters, data concerning them will be suppressed 5 years after the date of registration on this list.

- As an Insurer, it is entitled to carry out data processing relating to offences, convictions and security measures either at the time of the subscription to the policy, or during its execution or as part of the management of litigation.
- Personal data may also be used by the Insurer in the context of processing it carries out, and whose purpose is research and development to improve the quality or relevance of its future insurance products and/or assistance and service offers.
- Personal data concerning the Insured may be accessible to some of the Insurer's employees or service providers established in countries located outside of the European Union.
- The Insured has, on proving his or her identity, a right of access, rectification, deletion and opposition to the data processed. The Insured also has the right to request that the use of his or her data be limited if they are no longer necessary, or to recover in a structured format the data provided when these are necessary for the policy, or when consent has been given to the use of these data.

The Insured also has the right to set guidelines on the fate of his or her personal data after death. These directives, general or particular, concern the storage, deletion and communication of data after death.

These rights may be exercised with the Insurer's Data Protection Officer:

- by email to the address: DRPO@MUTUAIDE.fr
- or
- by post: by writing to the following address: Data Protection Officer - Mutuaide Assistance - 126, rue de la Piazza - CS 20010 - 93196 Noisy le Grand CEDEX.

After having made a request to the Data Protection Officer, and not having obtained a satisfactory reply, he or she may refer to the National Commission for Data Processing and Freedoms (CNIL - Commission Nationale Informatique et Libertés).

ARTICLE 6 - SUBROGATION

MUTUAIDE ASSISTANCE is subrogated up to the amount of the indemnities paid and the services provided by it in the rights and actions of the Beneficiary, against any person responsible for the facts which motivated its intervention. If the services provided in execution of the agreement are covered in whole or in part with another company or institution, MUTUAIDE ASSISTANCE will be subrogated to the rights and actions of the beneficiary against this company or this institution.

CLAUSE 7 - PRESCRIPTION

Pursuant to Article L 114-1 of the Insurance Code, any action deriving from this policy will be time-barred two years after the event giving rise to it. This period will be extended to ten years for death coverage, the actions of beneficiaries being time-barred no later than thirty years from the date of this event.

However, this period will only run:

- in the event of non-disclosure, omission, fraudulent representation or misrepresentation of the risk incurred, from the day that the Insurer became aware of this
- in the event of a claim, from the day that the interested parties became aware of this, if they prove that they were unaware until then

If the Insured is taking action against the Insurer due to recourse by a third party, the prescription time period will only begin from the day that the third party exercised the lawsuit against the Insured, or was compensated by them.

This prescription period may be interrupted, in accordance with Article L 114-2 of the Insurance Code, by one of the following ordinary causes of interruption:

- recognition by the debtor of the right of the person against whom it has prescribed (Article 2240 of the Civil Code)
- a claim in court, even in summary proceedings, until the proceedings are extinguished. The same applies if it is brought before an incompetent court, or if the act of referral to the court is annulled by the effect of a procedural defect (Articles 2241 and 2242 of the Civil Code). The interruption will be null and void if the plaintiff withdraws its claim or allows the case to lapse, or if its claim is definitively rejected (Article 2243 of the Civil Code)
- a precautionary measure taken under the Civil Enforcement Procedures Code or an enforcement order (Article 2244 of the Civil Code).

It is recalled that:

An interpellation made to one of the jointly and severally liable debtors by a legal action or by a forced execution order, or the acknowledgement by the debtor of the right of the person against whom it has prescribed, interrupts the prescription period against all others, even against their heirs.

On the other hand, an interpellation made to one of the heirs of a jointly and severally liable debtor, or the recognition of that heir, will not interrupt the prescription period with regard to the other co-heirs, even in the case of a mortgage debt, if the obligation is divisible. This interpellation or recognition will only interrupt the prescription period, with respect to other co-debtors, for the part which the heir holds.

To interrupt the prescription period for the whole, with respect to the other co-debtors, this would require the interpellation being made to all of the heirs of the deceased debtor, or the recognition of all these heirs (Article 2245 of the Civil Code).

The interpellation made to the principal debtor, or its recognition, will interrupt the prescription period against the surety (Article 2246 of the Civil Code).

The prescription period can also be interrupted by:

- the designation of an expert following a claim,
- the sending of a registered letter with acknowledgement of receipt (sent by the Insurer to the Insured regarding the action for payment of the contribution, and sent by the Insured to the Insurer regarding the settlement of compensation for the claim).

ARTICLE 8 - SETTLEMENT OF DISPUTES

If no amicable solution can be found, any dispute arising between the Insurer and the Insured relating to the setting and payment of benefits will be submitted by the most diligent party to the competent court of the beneficiary's domicile, in accordance with the provisions provided for in Article R 114-1 of the Insurance Code.

ARTICLE 9 - FALSE STATEMENTS

If they change the subject of the risk or diminish our assessment:

- Any reluctance or intentionally false declaration on your part will void the policy. Premiums paid remain vested in us, and we will be entitled to demand payment of any premiums due, as provided for in Article L 113.8 of the Insurance Code.
- Any omission or misrepresentation on your part, where bad faith has not been established, will result in the termination of the policy 10 days after notification, which will be sent to you by

registered letter, and/or the application of the reduction in compensation of the Insurance Code, such as provided for in Article L 113.9.

ARTICLE 10 - SUPERVISORY AUTHORITY

The authority responsible for monitoring MUTUAIDE ASSISTANCE is Autorité de Contrôle Prudentiel et de Résolution (ACPR) - 4, place de Budapest - CS 92 459 - 75 436 Paris Cedex 9.
