

1. Defining users scenarios - 15 minutes 👸

Write the names of the key users in the boxes, and then define up to four possible scenarios for each of them. Once done, vote for the most likely scenarios.

1.1 Write names of the key users in the boxes

	User 1	User 2	User 3	User 4	User 5	User 6	User 7	User 8	User 9	User 10
Users										
1.2 Define at least one scenario for every user - 10 Minutes										
Scenario 1										
Scenario 2										
Scenario 3										
Scenario 4										

1.3 Vote the most likely scenarios - 3 minutes

2. Defining the 'Big Scenario' considering all key users - 10 minutes 💍

Now, drag the most likely scenarios resulting from above in the below area. Then, start to define the future 'big scenario' of the destination with a representative phrase.

3. Hills: turn the users' needs into project goals - 10 minutes 👸

Mention again the key users (the 'Who'), and describe what the will be able to do (the 'What'), and wha they will be able to achieve (the 'Wow') in the big scenario
