

IEC Plugs and Sockets

Replacement plugs and sockets for discontinued 'sliding earth' plugs and sockets used on band heaters. We can also supply re-wireable silicone plugs.

Applications

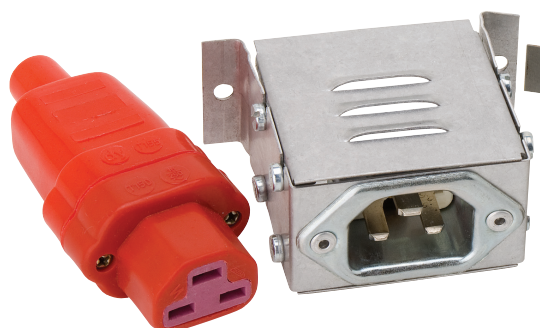

- Mica metal clad and ceramic insulated band heater power connections.

Features and benefits

- 15 A current capacity.
- International IEC and DIN specifications.
- Possible to retro-fit to existing band heaters.

Construction

- Sockets are stainless steel with ceramic insulation.
- Plugs are silicone sheath cover over metal connectors.

IEC sockets and re-wireable plugs to replace the old style 'sliding earth' plugs and sockets used on band heaters. Band heaters wider than 50 mm can be upgraded.

Specifications

Stock code	Description
ECPS04	Re-wireable IEC plug
ECPS09	Right angle re-wireable IEC plug
ECP15	IEC/ DIN Socket plug for band heaters
