

GSE Operations e-Learning

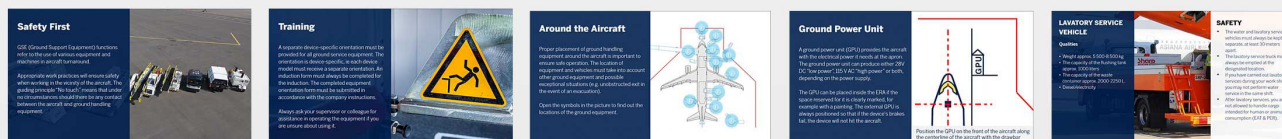

We offer a full range of web-based training courses in safety, security and service topics. Our self-study modules comply with the regulations of international and national legislations and those established by governing bodies, such as the ICAO and IATA.

This training course gives an overview of the safety requirements for operating Ground Service Equipment (GSE) while servicing aircraft. Participants will learn how to verify the safety and serviceability of GSE and how to operate GSE around aircraft to prevent costly ground damage to equipment and aircraft.

Upon successful completion of the final test, a participant will be awarded with an eCertificate. We can activate our cloud based training portal for your use immediately. The training portal is reliable, secure, scalable and available 24/7.

Ground Support Equipment (GSE) Operations e-Learning covers

- Introduction
- Safety considerations
- Overview of Equipment Types
- Pre-operational checks
- Aircraft Approach and Removal
- Aircraft Servicing Points
- Connecting and Disconnecting from Aircraft
- Operating Procedures
- Safety Precautions and Reporting
