Prep & Pack Tables

Ergonomic Design for Efficient Assembly & Packaging in Your SPD

Skytron Prep & Pack tables are designed to alleviate the physical stress placed on technicians performing the inspection, assembly, and packaging in your Sterile Processing Department. Standing in one position for hours on end, or using a workstation designed for someone else, can lead to uncomfortable neck or back pain and unsatisfied employees. Put your faculty's well-being in mind, and choose a Prep & Pack table that easily adjusts to the various physical attributes and requirements of the human body.
