

WILDNITE

The young hard rockers from Wildnite started up back in 2012. Within two years the band found their sound which was heavily inspired by the 80's hard rock scene. The band released their first single in 2016 and continuously released singles until the release of their debut album in 2018. Wildnite have been touring in Europe and has played a bunch of concerts since. The group has been working on their second studio album "Symphony Of Apathy"

About the single:

One And Only is a straight forward and groovy hard rock song, with a catchy chorus and melodic hooks. The song starts off with a memorable guitar riff which is the main formula. The structure of the song is fairly simple, but the different sections are really interesting and is very likely to catch your attention.

This is why we chose this song as the first single. Also because this is one of our personal favourites from the record.
