

Tietex Technical Data Sheet

Overview

TIETEX is a stitch-bonded polyester used to help fill in low spots and indentations in the roof. Stitch-bonding offers a rare combination of high-strength properties with good elongation for outstanding thermal pressure force accommodation.

Properties	Test Method	Typical Value
Weight oz./sq. ft.	N/A	3-oz./sq. ft.
Tensile Strength (Grab) lbs.	ASTM 1682-64	66 lbs.
Elongation (percent)	ASTM 1684-64	101%
Tear Strength (Trapezoid) lbs.	ASTM D5735	16 lbs.
Bursting Strength (Ball) lbs.	ASTM D3787-80A	80 lbs.

Note: The above values are average values obtained from a lab and should serve only as a guide.

Available Sizes:

-6" x 300'

-12" x 300'

-20" x 300'

-40" x 324'
