Lioness Tile

“When Beauty, Form and Intent Join Hands, It Can Only Lead to Magic.”

Introduction to our Catalogue

From the intricate jali-work from the dunes of Rajasthan, India, to the joyful riot of colours from the sunny streets of Marrakech, we explore and unearth styles hidden within stories from each region, and bring them to life in our collections. To build a space you love is to create a living, breathing extension of who you are, and what you believe in. From the doors, to walls, to the floor, each element is a reflection of your consciousness and aesthetic. And if the beauty of what adorns your home matters to you as much as how it's made and its makers, we welcome you to Lioness.

Melding art and design with a purpose, Lioness is passionate about creating timeless, environmentally-friendly tiles for homes, transforming everyday spaces into the extraordinary. With rich colours and designs evocative of our diverse artistic past, we adorn our tiles with art that lives and thrives around you, and forms an indelible part of what makes your house, a home.

Fashioned by the capable hands of our local artisan-partners based in Rajasthan, India, each tile is a testimony to the skill and attention to detail of the women artisans, who enjoy a sustainable and flourishing livelihood for their incredible work.

At Lioness Tile, we are proud of the incredibly talented and creative team of women that form our core. But there is so much more to do, and we as a society need to collectively challenge dated notions and create a level playing field for women and girls everywhere. Costa Nova

Costa Nova literally means New Coast. The inspiration of this design comes from the colours and beauty of Aveiro which is inseparable from the famous haystacks of Costa Nova do Padro (New Shore of the Meadow), a fishing town in Portugal. The design takes you back in time to an era when local fishermen transform simple storage houses in this tranquil town into happening living spaces.
