
Global Changes That Affect All Applications

Case: 33960 Specify more than 2 column level filters

Changed the column filter dialog to allow up to 10 different filters to be applied per column.

Case: 53223 Hover Text option for columns on regular reporting screens

Moved the "Hover Text" property from the Data Grid Entry Columns section of the page level administration tab to the regular Data Grid Columns section. This allows narrow columns to have the hover functionality on regular read-only reporting grids.

Case: 53759 Contact Status Summary report: Add contact type info

Email Type, Email Preferred, Phone Type, and Phone Number Seq columns have been added to the Contact Status Summary report. You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report.

Case: 53927 New Warehouse table(s): SYNVALIDATION_FIELDS

New warehouse table FASTPORTAL.SYNVALIDATION_FIELDS exists to house code and descriptions for validation values. Currently, email types and descriptions can be found in this table.

Case: 54102 Allow Last Name to be blank

Updated FAST to allow for blank last names.
