Release Notes: Version 4.9.06

FASTAR

Case: 52792 New report: Research Aged Receivables by Customer

Created a new report under the All Reports menu called Research Aged Receivables by Customer. This report is similar to the Research Aged Receivables report, but it's grouped by Customer instead of grouped by Age. This report is for clients who also run our FAST Research module, and can be disabled under Maintenance -> Report Comments at sites that do not have FAST Research installed.

FASTBUDGET

Case: 55230 Enable Alternate Hierarchies on Summary by Detail reports

Development and Forecast Summary by Detail reports now support the use of alternate hierarchies in the filter tab.

FASTFINAID

Case: 55087 Term Info column typo

Fixed a column name typo in the TBLTERM_INFO table by renaming the "FEDRAL_FUND_DESC" column to be "FEDERAL_FUND_DESC" instead.

FASTFINANCE

Case: 52278 New report: Vendor PO Summary

Added a new report "Vendor PO Summary" under the Additional Reports menu.

Please note that this report does not apply Fund/Orgn security.

Case: 54683 Exporting Trial Balance when using cross-tab

Fixed a bug when using Cross Tab on Trial Balance where the report would not export properly to Excel/PDF.

Case: 55157 Searching for FASTAR Invoices on Document Number Search

When entering a FAST Invoice Number into the Document Number Search report in Finance Reporting, the Batch ID that the Invoice was a part of will now be returned in the results (assuming that FASTAR is installed, and that the Invoice has been posted to the GL already).

Case: 55213 Allow for up to 10 years in Annual Trend and Annual Variance reports

The Annual Trend and Annual Variance summary reports now support up to 10 years instead of only five years. The new additional columns are deselected by default, but can be turned on via the Advanced Options tab or page level Administration tab.

FASTHR

Case: 55113 New report: Timesheet - Completed

Added new Time Sheet - Completed report.

The report is under the Leave menu -> Time Sheet Approvals -> Time Sheet Completed Live.

Case: 55265 Add Salary range columns to All Current Positions report

Added three new Salary columns to the Positions -> All Current Positions report:

- Range Low
- Range Midpoint
- Range High

These can be disabled, or access restricted by security role, through the page level Administration tab under the Data Grid Columns section.

FASTJV

Case: 54359 Require attachments when submitting for Central approval?

Created a new Configuration Setting #500: "Require attachments when submitting for Central approval (Y/N)" with a default value of N. When this is changed to Y, the approval screen will check to ensure a Document has attachments and if not, the option to send to Central Approval will be grayed out.

FASTRESEARCH

Case: 55100 Research Aged Receivables report not grouping on currency

Fixed a bug with the Research Aged Listing report where currencies would be mixed together in each age group and the grand total would include all currencies totaled together. There will now be separate age sections for each currency and a separate grand total page for each currency.

FASTSTUDENT

Case: 53144 Enrollment Planning: Default course title

When entering a new course into a course plan (Review/Edit Course Plan page), if the term code, subject code, and course number are populated, FAST will now automatically populate the default course title upon save if no course title is provided.

Case: 53282 Enrollment Planning: Add Course Start and End dates to Review/Edit Course Plan

Course Start and Course End columns have been added to the data entry page in deselected mode. These fields are editable by drilling down on the course days/times/room hyperlink.

You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report.

Case: 53450 Enrollment Planning: Add course level

Course Level information can now be viewed and edited within the Enrollment Planning application, specifically on the Edit/ Review Course Plan page. A new column named 'Course Level(s)' exists and is 'Deselected' by default.

You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report.

Case: 53704 Enrollment Planning: Required workload by term/workload unit type now available

When populating a course plan, if default workload requirements exist for a faculty member per the FAST 'Faculty Workload Default Rules' (Course Planning, Institutional Definitions menu), they will now get populated into the course plan and are editable.

The new columns are 'Workload Unit Type', 'Workload Unit Type Desc', and 'Reqd Workload'. These columns are 'Deselected' by default. You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report.

Case: 54769 Student Account Balance report: Add Holds column and change to standard baseline report

Because this page originally had three additional data elements showing in the bottom left hand corner (Delinquency Codes, Holds, and Account Balance) it was not a standard baseline page and some baseline functionality was missing (i.e. Form Generator option and the ability to add columns/filters via the Administration tab).

Those additional data elements have now been added as columns within the report and the three data elements from bottom left hand corner have been removed and all standard baseline functionality is now available.

The new 'Holds?' column has been added in 'Deselected' mode. You can adjust whether new columns and/or filters are added/ enabled via the Administration tab of the report.

Case: 54792 Mail Groupings - Edit Options not appearing in data entry popup window

Fixed issue that prevented the grid running in the popup from being able to run in data entry mode

Case: 54912 Student AR Delinquency & Billing codes and Visa Information

Delinquency and Billing Code columns and filters were added to the Account Balance report and AR Student List reports.

The following VISA related columns were added to the student Account Balance report:
VISA_SEQUENCE,
VISA_TYPE,
VISA_NUMBER,
ISSUING_NATN_CODE,
VISS_CODE AS VISA_VISS_CODE,
VISA_START_DATE,
VISA_EXPIRE_DATE,
VISA_ENTRY_IND,
VISA_REQ_DATE,
VISA_ISSUE_DATE,
PENT_CODE AS VISA_PENT_CODE,
DECODE(VI.IS_ACTIVE,1,"Y","N") AS VISA_IS_ACTIVE

Note that VISA_NUMBER will only be populated with the actual visa number if table hint #SHOW_VISA_NUM# in TBLWAREHOUSE_HINTS is set to 'Y'. This value is set to 'N' by default. (This value can be updated by Millennium Customer Support only. Submit a customer support ticket to customersupport@mcsl.com if you would like this value changed).

Case: 54924 AR Priority column to Student Account Balance report

This column has been added in 'Deselected' mode. You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report.

Case: 54995 Add Student Registration Time Ticket info to General Student Info report

Added Registration Begin Date, End Date, Hour Begin, and Hour End to the General Info report under Student Info in Student Reporting.

Case: 55034 Add Overall Academic History information to General Student Info report (transfer plus institutional)

Added the following columns to the "General Student Info" report:
- Overall GPA Hours
- Overall GPA
- Overall Hours Attempt
- Overall Hours Earned
- Overall Hours Passed
- Overall Points

Case: 55067 Enrollment Summary & Course Summary reports: Ability to filter for multiple instructors

The ability to filter for multiple instructors has been added to both the Enrollment Summary and Course Summary reports.

Case: 55085 Enrollment Planning: Course Plan Faculty Summary report

A new report, 'Course Plan Faculty Summary' has been added to the Course Planning, Course Plans menu. This report is a way for users to see aggregated information by faculty across multiple plans and compare expected workload to assigned workload.

Case: 55118 Contact Hours error on Enrollment Summary and Course Summary reports

Contact Hours column was added to Course Summary and Course Enrollment report

Case: 55133 Institutional Definitions: Add Credit Hours and Term Type Options

Credit Hours and Term Type (ie. Fall, Spring, Summer) can now be used as a criteria when creating Student Institutional Definitions.

Case: 55152 Student Account Balance report: Student Definition filter

A new Student Institutional Definition filter is available for use on the Student Account Balance report.

Case: 55170 Add Term Effective and Term End date to the Active Course Catalogue report

The Term Effective and Term End dates from the SCBDESC table have been made available in the Active Course Catalogue report. If you want to be able to use these columns, you will need to manually add these columns via the Administration tab on the report.

To edit/review available columns, go to the Administration tab of the report, Data Grid Columns and click on 'Add New Data Grid Column' button in bottom left corner. If you require assistance with this, please drop us a note at customersupport@mcsl.com.

Case: 55221 Student AR Detail with FOAPALs report

A new report has been created within the Student Accounts menu displaying Student Account transaction detail including FOAPALs and additional 'Feed to Finance' information.

Case: 55222 Student AR Institutional Definitions: Ability to use FOAPALs

FOAPAL elements (fund, orgn, etc.) can now be used when creating Student AR institutional definitions.

NOTE: Their use is dependent upon licensing of the FAST Finance application.

Case: 55233 Add Options to Student to Finance FOAPAL Crosswalk

Course Subject and Campus have been added as options to use on the Student to Finance FOAPAL Crosswalk page (Course Planning, Institutional Definitions menu).

These two columns are defaulted to 'Deselected'. You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report.

Case: 55287 Invoice Number and Invoice Statement Date added to Student Account Balance report

These columns have been added in 'Deselected' mode. You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report.

Case: 55319 Waitlist Report: speed up live mode

Changes made to "live mode" query to increase speed.

Case: 55376 Enrollment Planning: Course Plan Faculty Detail report (NEW)

A new report, 'Course Plan Faculty Detail' has been added to the Course Planning, Course Plans menu. This report is a way for users to see detailed information by faculty across multiple plans and compare expected workload to assigned workload.

Case: 55488 Enrollment Planning: Add Term Description

Term Desc column has been added as an option to the Enrollment Planning reports under the Course Planning menu. It has been added in 'Deselected' mode to the Review/Edit Course Plans report and is available to add via the admin tab for the other reports.

You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report. To add a new column, go to the Administration tab of the report, Data Grid Columns section, and click on 'Add New Data Grid Column' button in bottom left corner.

Global Changes That Affect All Applications

Case: 54608 Grow Menu Layout & Menu Admin screens to available height

The tree control on the Menu Layout and Menu Administration screens will now grow to fill any available vertical space within the browser window.

Case: 54704 Changing comparison wipes out value

Fixed issue that cleared the selected date value when the comparison drop down changed

Case: 54705 Count(Distinct) on a date column

When performing a Count (Distinct) grouping function on a Date type column the value being displayed was a date format and not the count value. That issue has been fixed and the count value is now being displayed.

Case: 54793 Institutional Definitions Rule page issue

Fixed issue that prevented the page from rendering in the popup control

Case: 54978 Can only add one hyperlink condition

Fixed issue that would not allow users to add more than one hyperlink condition.

Case: 55031 Add "Notes" column to User/Role Assignment

Added a "Notes" column to the User/Role Assignment screen to allow administrators to make notes or track details about any given security assignments.

Case: 55053 Make Subject field mandatory

An error message will now display if the subject field is left blank when sending an email.

Case: 55090 Dashboard grid does not fill available space

Fixed a bug where a grid on a dashboard wouldn't always fill the available vertical space.

Case: 55137 Drag and drop XLS file

When importing from Excel on a data entry screen, if a XLS file is drag and dropped onto the upload control an error message will now display informing the user that the file must be in XLSX format.

Case: 55220 Institutional Definitions: Update Institutional Definitions button

For institutional definitions with extensive criteria, when the update institutional definitions button was pushed, an error occurred. This issue has been resolved.

Note: The nightly refresh of institutional definitions was not affected by this bug.
