Regarding Insurers

Daniel Walsh FRCS, Consultant Neurosurgeons has not entered into any agreement with any insurance company to provide their clients with preferential rates for outpatient consultation. Charges are identical for self-pay patients.

AXA PPP decline to accept our standard, published charges and as a result clients of theirs wish to consult should check whether their insurer is prepared to cover their costs in advance. Otherwise, the client will be liable for the full amount.

Health Insurance companies who presently recognise our standard charges include:

- Aviva Health
- BUPA
- BUPA International
- Cigna Health
- Healix
- Vitality
- WPA

A quote for the estimated cost of any proposed treatments will be provided in advance along with standard documentations as required by PHIN which will require acceptance in advance.
