The Hartford has insured livestock since 1916, giving us the experience to understand your risks. Our pasture cattle coverage provides insurance for the death of covered livestock due to covered causes of loss, including:

- Fire
- Lightning
- Windstorm
- Drowning
- Flood
- Building collapse
- Vandalism
- Smothering caused by blizzard
- And more

Coverage for the theft of covered livestock is also included.

CUSTOMIZE WITH A FULL STOCK OF OPTIONS

The Hartford's feedlot cattle insurance program lets you add more protection:

Valuation schedule. Our standard program values covered livestock at current market value. But our optional valuation schedule can provide more flexibility. It amends coverage with values for types or categories of covered livestock that you and The Hartford agree aren't represented by current market value.

Hypothermia coverage. Adds hypothermia to our standard program as a covered cause of loss. Two conditions apply:

- Hypothermia is caused by exposure to freezing rain, sleet, blizzard, or snowstorm
- Hypothermia results in the death of your covered livestock

Carcass removal coverage. Adds the expense of carcass removal to our standard program if such carcasses are covered livestock that died as a result of a covered cause of loss.

Contaminated feed or water coverage. This protects your investment when the consumption of a toxic substance in feed or water results in the death of covered livestock.

EASE AND EFFICIENCY: A SINGLE POINT OF CONTACT

Our in-house Claims service consultants can handle all your claims and coverage assessment needs, 24/7. Feel confident knowing that your business needs are understood. And any loss settlements will be expedited smoothly.
